## INDEPENDENT AUDITORS' REPORT

Board of Trustees  
Edgewood College, Inc.  
Madison, Wisconsin

### **Report on the Financial Statements**

We have audited the accompanying financial statements of Edgewood College, Inc. (the College), which comprise the statements of financial position as of June 30, 2021 and 2020, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditors' Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the College as of June 30, 2021 and 2020, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### **Emphasis of Matter**

As discussed in Note 1 to the financial statements, the College adopted Accounting Standards Update No. 2014-09, *Revenue from Contracts with Customers (Topic 606)* and its related amendments. Our opinion is not modified with respect to that matter.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated November 2, 2021 on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

## NOTES TO FINANCIAL STATEMENTS As of and for the Years Ended June 30, 2021 and 2020

---

### NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

---

Edgewood College, Inc. (the College) is an educational institution sponsored by the Sinsinawa Dominican Congregation of the Most Holy Rosary offering graduate and undergraduate degrees.

The accounting policies of the College reflect practices common to colleges and universities and conform to accounting principles generally accepted in the United States of America. The more significant accounting policies are summarized below:

**Net Asset Classification** - For the purposes of financial reporting, the College classifies resources into two net asset categories pursuant to any donor-imposed restrictions and applicable law. Accordingly, the net assets of the College are classified in the accompanying financial statements in the categories that follow:

**Net Assets with Donor Restrictions** - Net assets subject to donor-imposed time or purpose restrictions that will be met by action of the College and/or the passage of time and donor restricted endowment funds required to be held in perpetuity.

**Net Assets without Donor Restrictions** - Net assets not subject to donor-imposed restrictions.

Revenues from sources other than contributions are generally reported as increases in net assets without donor restrictions. Expenses are reported as decreases in net assets without donor restrictions. Income earned on donor restricted funds is initially classified as net assets with donor restrictions and is reclassified as net assets without donor restrictions when expenses are approved for their intended purpose.

Unconditional contributions, including promises to give, are recognized as revenues in the period received and are reported as increases in the appropriate categories of net assets in accordance with donor restrictions. Contributions to be received after one year are discounted at the interest rate in effect in the year the pledge was received. Amortization of the discount is recorded as additional contribution revenue. An allowance, if any, is made for doubtful contributions receivable based upon management's judgment and analysis of the past collection history and other relevant factors. Contributions determined to be not collectible are recorded as bad debt expense. Expirations of donor restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as releases between the applicable classes of net assets. Conditional promises to give, that is, those with a measurable performance or other barriers and a right of return, are recognized when they become unconditional, that is, when the conditions are met. As of June 30, 2021, and 2020 there were approximately \$3,760,000 and \$0 conditional contributions, respectively, related to the federal Higher Education Emergency Relief Fund grant.

Contributions of property and equipment without donor stipulations concerning the use of such long-lived assets are reported as increases in net assets without donor restrictions. Contributions of cash or other assets to be used to acquire property and equipment are reported as net assets with donor restrictions; the restrictions are considered to be released at the time such long-lived assets are placed in service. Gifts for long-lived assets and the related release when placed into service are included in the non-operating activities section of the statements of activities.

In the absence of donor stipulations or law to the contrary, gains or losses on the investments of a donor-restricted endowment fund increase or decrease net assets with donor restrictions.

Gains or losses on investments of endowment funds created by a board designation of funds without donor restrictions increase or decrease net assets without donor restrictions.

### NOTES TO FINANCIAL STATEMENTS As of and for the Years Ended June 30, 2021 and 2020

#### NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (cont.)

**Cash and Cash Equivalents** - The College considers highly liquid investments including money market accounts and certificates of deposit with a maturity of less than two years when purchased, except for those held for long-term endowment or plant investment, to be cash equivalents. The College is required to maintain funds relating to the Perkins Loan Program in a separate account. At June 30, 2021 and 2020 the Perkins Loan program account balances were \$132,658 and \$107,676, respectively.

**Short-term Investments** - Short-term investments consist of investments held in short-term bond mutual funds carried at fair value that may be used for the daily operation of the College.

**Restricted Cash and Cash Equivalents** - The College co-owns bank accounts and certificates of deposit with Edgewood High School of the Sacred Heart and Edgewood Campus School which are held as reserve accounts for future capital repairs or improvements as established by condominium association and building tenancy-in-common agreements.

The following table provides a reconciliation of cash and cash equivalents and restricted cash and cash equivalents reported within the statements of financial position that sum to the total of the same such amounts shown in the statements of cash flows.

	2021	2020
Cash and cash equivalents	\$ 19,072,983	\$ 18,580,585
Restricted cash and cash equivalents	1,328,253	1,416,304
Total Cash, Cash Equivalents and Restricted Cash shown in Statement of Cash Flows	\$ 20,401,236	\$ 19,996,889

**Student Accounts Receivable** - Student accounts receivable are reported at the net realizable balance of the amounts billed to students. A late payment fee is charged to students that do not pay by the initial payment due date near the start of each term or enroll in a payment plan. Students can enroll in a payment plan that allows them to pay over the course of one term. A finance charge is charged on the unpaid balance at the end of each month and is recognized as it is charged. A student account receivable is considered to be delinquent when a scheduled payment is more than 30 days past the payment due date.

**Government Grants Receivable** -The Federal government appropriated funds to the Higher Education Emergency Relief Fund (HEERF) through three rounds of legislation from March 27, 2020 to March 11, 2021. The College was awarded HEERF grant funding from each round of legislation. The awards included amounts for student emergency relief grants and for institutional grants. The College has expended \$733,450 and \$701,460 of student relief grants for the years ending June 30, 2021 and 2020, respectively, which are included in scholarships and fellowships expense and government grants and contracts revenue on the statements of activities. The Institutional portion of the grant has been used to defray expenses, including lost revenue, associated with COVID-19. For the years ending June 30, 2021 and 2020 HEERF institutional funds of \$1,473,361 and \$701,460 have been recognized on the statements of activities as government grants and contracts revenue. As of June 30, 2021, \$1,956,544 of HEERF funding is reported in government grants receivable on the statements of financial position for grant funds expended and not yet received. As of June 30, 2021, \$469,923 of institutional funds are reported in deferred revenue – other on the statements of financial position pending revenue recognition when conditionally related student relief grants are made in the future.

#### NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (cont.)

---

**Inventories** - Inventories, consisting of items for the bookstore, are valued at lower of cost or market determined by the first-in, first-out method.

**Investments** - Investments are carried at fair value, primarily based on quoted market prices or quoted net asset values, except for certificates of deposit, money market accounts and treasury bills which are carried at cost and approximate market value. Realized and unrealized gains and losses are reflected within long-term investment return (net) in the statements of activities.

**Prepaid rent Performing Arts Center** – The College entered into a lease with Edgewood High School of the Sacred Heart (the High School) on July 3, 2018 related to the College's use of space in the High School performing arts center for performances, rehearsals, classroom instruction and other educational purposes. The College made prepayments of \$850,000 at the initiation of the lease toward the twenty-year term of the lease. The prepaid amount is being amortized on a straight-line basis over the term of the lease. At June 30, 2021 and 2020, respectively, the College has an unamortized balance of \$765,000 and \$807,500 which is reported as prepaid rent Performing Arts Center on the statements of financial position. See also Note 11.

**Prepaid rent Reddan Field** – The College entered into a construction and license agreement on November 5, 2019 with the Madison Area Youth Soccer Association (MAYSA) for the construction of a turf athletic field on property leased and managed by MAYSA to be used by the College for lacrosse, soccer and other athletic events and activities. The initial agreement is for ten years ending May 31, 2030 and includes early termination and extension options. The College was responsible for funding field improvement costs totaling \$1,006,616. The College is amortizing the field improvement costs on a straight-line basis over the ten-year initial term of the agreement. At June 30, 2021 and 2020, respectively, the College has an unamortized balance of \$905,954 and \$62,100 which is reported as prepaid rent Reddan Field on the statements of financial position.

**Investment in Joint Venture** - The College is a member of the Center for Healthcare Education and Simulation, Inc. (the Center), a non-stock, non-profit organization. The Center has three members including Edgewood College, UnityPoint Health - Meriter and SSM Health St. Mary's Hospital - Madison which have identical rights and obligations with respect to voting, dissolution, redemption, transfer and otherwise. The Center is governed by a Board of Directors consisting of two directors representing each member. The Center is established to provide educational experiences for students enrolled in nursing or other medical professional programs, new and experienced nurses, and other medical professionals. The College's investment in the joint venture is accounted for using the equity method and is reported as an asset in the statements of financial position and as change in equity in joint venture in the statements of activities.

**Beneficial Interest in Private Foundation** - The College is a stated beneficiary of a private foundation from which the College receives a specified percentage of the annual distributions made by the foundation. The College's beneficial interest in the private foundation is reported as an asset in the statements of financial position and as change in beneficial interest in private foundation in the statements of activities.

**Property, Plant, Equipment and Library Books** - Physical plant, equipment and library books are stated at cost at the date of acquisition or fair value at the date of donation in the case of gifts. Depreciation of property, equipment and library books is provided on the straight-line method over the estimated useful lives of the respective assets. The College uses the following depreciable lives:

- Buildings - 50 years
- Building and land improvements - 20 years
- Library books - 12 years
- Vehicles – 5 years
- Equipment and software - 3 to 7 years

The College capitalizes building and land improvements greater than \$20,000 and software and equipment additions of \$5,000 or more. Collections of works of art, historical treasures and similar assets are not capitalized. Normal repairs and maintenance expenses are charged to operations as incurred.

**Impairment of Long-Lived Assets** - The College reviews long-lived assets, including property and equipment and intangible assets, for impairment whenever events or changes in business circumstances indicate that the carrying amount of an asset may not be fully recoverable. An impairment loss would be recognized when the estimated future cash flows from the use of the asset are less than the carrying amount of that asset. For the years ending June 30, 2021 and 2020 there have been no such losses.

**Asset Retirement Obligations** - The College recognizes the fair value of a liability for legal obligations associated with asset retirements in the period in which it is incurred, if a reasonable estimate of the fair value of the obligation can be made. Over time, the liability is accreted to its present value each year. Upon settlement of the obligation, any difference between the cost to settle the asset retirement obligation and the liability recorded is recognized as a gain or loss in the statements of activities. The College reviews its estimates annually and adjusts the recorded liability as needed.

All of the College's asset retirement obligations relate to estimated costs to remove asbestos from campus facilities. The estimate of the losses that are probable for asbestos removal was calculated using the expected cash flow approach based on an inventory of the College's long-lived assets combined with an estimate of the current market prices to remove the asbestos. The College utilized a credit-adjusted risk-free rate to discount the asset retirement obligation.

At June 30, 2021 and 2020, the asset retirement obligations are estimated to be approximately \$130,000. This obligation is included in accrued expenses within the statements of financial position.

**Deferred Revenue – Summer Session** - Revenue for summer courses and housing that overlap the College's June 30th year-end is recognized ratably between the two fiscal years. As of June 30, 2021 and 2020, respectively, the College reported deferred revenue of \$1,065,327 and \$1,047,665 for summer session tuition and housing collected from students prior to the June 30<sup>th</sup> year end that was recognized as revenue in the following year.

**Bond Costs** - Series 2015 Bond issuance costs are being amortized over the term of the related debt using the effective interest method and the unamortized balance is reported as a reduction of bonds payable within the statements of financial position (see Note 8).

---

**Refundable U.S. Government Student Loans** - Funds provided by the United States Government under the Federal Perkins Loan Program were loaned to qualified students and through June 30, 2018 were allowed to be re-loaned after collection. Funds advanced by the Federal government of \$674,408 and \$764,587 as of June 30, 2021 and 2020, respectively, are classified as refundable U.S. government student loans on the statements of financial position.

**Tuition and Fees and Sales and Services of Auxiliary Enterprises Revenue** - Student tuition and fees are recorded as revenues during the year the related academic services are rendered and are displayed net of financial aid on the statements of activities. Gross tuition and fees totaled \$48,117,813 and \$46,450,340 for the years ended June 30, 2021 and 2020, respectively. Student financial aid and other discounts totaled \$16,378,909 and \$14,546,139 for the years ended June 30, 2021 and 2020, respectively. Student financial aid, in the form of scholarships and grants includes amounts funded by the endowment, gifts and grants and reduces the published price of tuition for students receiving such aid. Student financial aid is reported as a reduction of tuition and fees revenues. Students who withdraw completely near the start of a term may receive a partial refund in accordance with the College's refund policy. Refunds issued reduce the amount of revenue recognized. Student tuition and fees received in advance of services to be rendered, net of applicable financial aid, are recorded as deferred revenues, which is a liability in the statements of financial position. Tuition revenue is recognized ratably and the performance obligation is considered satisfied throughout the reporting period in which the academic program courses are delivered. Program courses are delivered in the Fall (mid-August to mid-December), Spring (mid-January to mid-May) and Summer academic terms. Courses held in the Summer term have various start and finish dates from mid-May through early August. Auxiliary services include revenues from providing student housing and dining services, bookstore services, room rentals and events. Housing and dining services contracts are delivered over the academic terms and revenues are recognized ratably and performance obligations are satisfied as the services are provided. Bookstore sales, room rentals and other events revenue is recognized at the point of sale or at the date of event. No revenue was recognized in fiscal year 2021 and 2020 for performance obligations met in prior years. There are no contract assets or expressed or implied warranties.

**Government Grants and Contracts Revenues** - Revenue from government grants and contracts is recognized when conditions are met in accordance with the related agreement. Government grants and contracts where any conditions and restrictions are met simultaneously are presented as without donor restrictions on the statements of activities.

**Grants to Specified Students** - Amounts received from Federal and State agencies designated for the benefit of specified students are considered agency transactions and, therefore, are not reflected as revenues and expenses of the College. The amount of such grants from the State of Wisconsin totaled \$1,471,654 and \$1,454,409, and the amount from Federal Pell grants totaled \$1,643,595 and \$1,628,693 during the years ended June 30, 2021 and 2020, respectively.

**Income Tax Status** - The Internal Revenue Service has determined that the College is exempt from Federal income tax under Section 501(c)(3) of the Internal Revenue Code. It is also exempt from state income tax. However, any unrelated business income may be subject to taxation.

The College follows the accounting standards for contingencies in evaluating uncertain tax positions. The guidance prescribes recognition threshold principles for the financial statement recognition of tax positions taken or expected to be taken on a tax return that are not certain to be realized. No liability has been recognized by the College for uncertain tax positions as of June 30, 2021 and 2020. The College's tax returns are subject to review and examination by Federal and State authorities. The tax returns for the current year as well as fiscal years 2018 and 2017 and thereafter are open to examination by Federal and State authorities, respectively.

### NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (cont.)

---

**Advertising Costs** - The College follows the policy of charging the cost of advertising to expense as incurred. Advertising expense for the years ended June 30, 2021 and 2020 approximated \$590,000 and \$730,000, respectively.

**Measure of Operations** - The College's change in net assets from operating activities include all operating revenues and expenses that are an integral part of its programs and supporting activities and net assets released from donor restrictions to support operating expenditures. The measure of operations includes support for operating activities from both donor restricted net assets and net assets without donor restrictions designated for long-term investment (the donor restricted and board designated endowments) according to the College's spending policy, which is detailed in Note 14. The measure of operations excludes investment return in excess of (less than) amounts made available for current support. The measure of operations also excludes changes in fair value of the interest rate swap agreement, beneficial interest in private foundation and equity in joint venture. The measure of operations also excludes gifts and private grants for long-term endowment and plant. Included in the line item long-term investment return, net, greater (less) than amount designated for operations is investment return appropriated from board designated endowment to operations of \$1,268,570 and \$1,248,160 for 2021 and 2020, respectively.

**Use of Estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Reclassification** – On the statements of financial position the amount of \$1,189,116 previously reported as prepaid expenses at June 30, 2020 has been reclassified and reported in the following three lines; prepaid expenses \$319,516, prepaid rent Performing Arts Center \$807,500 and prepaid rent Reddan Field \$62,100. The reclassification had no effect on reported amounts of net assets or changes in net assets.

**Adopted Accounting Pronouncements** - In 2021, the College adopted Accounting Standards Update (ASU) No. 2014-09, *Revenue from Contracts with Customers (Topic 606)* and all related amendments. ASU No. 2014-09 establishes principles for recognizing revenue upon the transfer of promised goods or services to customers, in an amount that reflects the expected consideration received in exchange for those goods or services. Additionally, ASU No. 2019-09 requires enhanced disclosures of revenue arrangements. The College has applied the changes retrospectively to all periods presented. Under the full retrospective approach, the guidance is applied to the first period presented, recognizing a cumulative effect of the adoption changes as an adjustment to beginning net assets.

The College utilized a portfolio approach, a practical expedient allowed under the standard, and reviewed contracts with similar terms and conditions. The adoption did have an impact on the College's financial statements. This resulted in an adjustment to tuition and fees and deferred revenue for summer school tuition and fees for the year ended June 30, 2020.

### NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (cont.)

---

**Recent Accounting Pronouncements** - In June 2016, the Financial Accounting Standards Board (FASB) issued ASU No. 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*. ASU No. 2016-13 requires financial assets measured at amortized cost to be presented at the net amount expected to be collected, through an allowance for credit losses that is deducted from the amortized cost basis. The measurement of expected credit losses is based on relevant information about past events, including historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount. FASB has issued subsequent standards to clarify, correct errors in or improve the guidance. ASU No. 2016-13, as amended, is effective for annual periods beginning after December 15, 2022 (fiscal year 2023-24). Early adoption is permitted for annual and interim periods beginning after December 15, 2018. Management is currently evaluating the impact of ASU No. 2016-13 on the College's financial statements.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)* that amends the treatment for leases. The new accounting model for leases capitalizes all leases greater than twelve months, both capital and operating, as assets and liabilities on the statements of financial position. The College will be required to apply the standard for fiscal years and reporting periods beginning after December 15, 2021 (fiscal year 2022-23). Early adoption is permitted. Management is currently evaluating the impact of ASU No. 2016-02 (as amended) on the College's financial statements.

During September 2020, FASB issued ASU No. 2020-07, *Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets*. ASU No. 2020-07 improves financial reporting by providing new presentation and disclosure requirements about contributed nonfinancial assets, including additional disclosure requirements for recognized contributed services. The standard will be required to be applied retrospectively for annual periods beginning after June 15, 2021 (fiscal year 2021-22). The College does not believe that the adoption of ASU No. 2020-07 will have a material effect on its financial statements.

During March 2020, FASB issued ASU No. 2020-04, *Facilitation of the Effects of Reference Rate Reform on Financial Reporting*. ASU No. 2020-04 provides optional expedients and exceptions for applying generally accepted accounting principles (GAAP) to contracts, hedging relationships, and other transactions that reference LIBOR or another reference rate expected to be discontinued because of reference rate reform, if certain criteria are met. Entities may elect the optional expedients and exceptions included in ASU No. 2020-04 as of March 12, 2020 and through December 31, 2022. The College is currently assessing the effect that electing the optional expedients and exceptions included in ASU No. 2020-04 would have on its results of operation, financial position and cash flows.

During August 2017, FASB issued ASU No. 2017-12, *Targeted Improvements to Accounting for Hedging Activities*. ASU No. 2017-12 improves the financial reporting of hedging relationships to better portray the economic results of an entity's risk management activities in its financial statements. During April 2019, the FASB also issued ASU No. 2019-04, which clarifies certain aspects of ASU No. 2017-12. ASU No. 2017-12 (as amended) is effective for fiscal years beginning after December 15, 2020, and interim periods within fiscal years beginning after December 15, 2021 (fiscal year 2021-22). Early adoption is permitted. The College does not believe that the adoption of ASU No. 2017-12 (as amended) will have a material effect on its results of operation, financial position and cash flows.

### NOTE 2 – CONCENTRATION OF CREDIT RISK

---

Financial instruments that potentially subject the College to concentrations of credit risk consist principally of cash and cash equivalents, short-term investments, money market funds, mutual funds, marketable securities, other investments, contributions receivable, and accounts and notes receivable. The College places substantially all of its cash and liquid investments with a variety of financial institutions and limits the amount of credit exposure at any one financial institution; however, cash balances may periodically exceed federally insured limits. Marketable securities, consisting of both debt and equity instruments, are generally placed in a variety of managed funds administered by different investment managers in order to limit credit risk. Student notes and receivables and other receivables are due from a variety of sources concentrated primarily in the Midwestern United States. In addition, the College's students receive a substantial amount of support from State and Federal student financial assistance programs which is subject to audit by governmental agencies. A significant reduction in the level of this support, if this were to occur, could have an adverse effect on the College's programs and activities.

---

### NOTE 3 – FAIR VALUE MEASUREMENTS

---

***Fair Value Hierarchy*** - Fair value is defined in the accounting guidance as the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Under this guidance, a three-level hierarchy is used for fair value measurements which is based on the transparency of information, such as the pricing source, used in the valuation of an asset or liability as of the measurement date.

Level 1 - Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. This includes quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data.

Level 3 - Inputs are unobservable for the asset or liability. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

U.S. Treasury bills are carried at accreted cost and certificates of deposit and money market accounts are carried at cost which approximates fair value and are included within investments in the statements of financial position.

The following methods and assumptions were used to estimate the fair value for each class of financial instrument measured at fair value:

**Mutual Funds** - Mutual funds are classified as Level 1 as they are traded in an active market for which closing prices are readily available.

**Beneficial Interest in Private Foundation** - The beneficial interest in the private foundation is classified as Level 3 as the fair value is based upon the anticipated discounted cash flow from the foundation, or as a practical expedient, at the valuation of the College's portion of the foundation's assets. This change in value from year to year is unrealized gains and is reported as Change in beneficial interest on the statements of activities. There were no purchases, sales or transfers in or out of Level 3 financial instruments during the fiscal years ending June 30, 2020 or 2021.

**Interest Rate Exchange Agreements** - Interest rate exchange agreements are classified as Level 2 as the fair value is based on observable inputs to a valuation model (interest rates, credit spreads, etc.) which take into account the present value of the estimated future cash flows and credit valuation adjustments (See Note 9).

## EDGEWOOD COLLEGE, INC.

### NOTES TO FINANCIAL STATEMENTS As of and for the Years Ended June 30, 2021 and 2020

#### NOTE 3 – FAIR VALUE MEASUREMENTS (cont.)

**Alternative Investments Measured at NAV** - The fair value of certain funds has been estimated using the Net Asset Value (NAV) as reported by the management of the fund. Accounting guidance allows for the use of the NAV as a “practical expedient” estimating the fair value of alternative investments. NAV reported by each alternative investment fund is used as a practical expedient to estimate the fair value of the College’s interest in the fund.

While the College believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The estimated fair value of the low volatility hedge fund and private real estate funds are based on the valuations provided by the external investment managers as of June 30. The College believes the carrying amount of these investments are a reasonable estimate of fair value. Because the investments are not readily marketable, the estimated fair values are subject to uncertainty and, therefore, may differ from the value that would have been used had a ready market for such investments existed. The following table lists the alternative investments at June 30, 2021:

	<u>Low Volatility Hedge Fund – Blackstone Partners Offshore Fund Ltd.</u>

#### NOTE 4 – INVESTMENTS

The College's investment objectives include seeking long-term total return consistent with prudent levels of risk by maintaining a well-diversified investment portfolio that follows the Investment and Spending Policy Statement adopted by the Board of Trustees. Equity investments are diversified by market capitalization, style, industry and country. Fixed income investments are diversified by market sector, maturity, credit quality and issuer. The College utilizes an investment consultant to provide independent review, analysis and recommendations regarding oversight of the investment portfolio and to recommend asset allocation and investment funds. The College's Finance, Audit and Investment Committee, within the framework set by the Board of Trustees, has responsibility for the establishment and oversight of investment policies and procedures which are implemented by College management.

The following summarizes the College's investments at June 30:

#### **NOTE 5 – CREDIT QUALITY OF STUDENT NOTES RECEIVABLE**

The College has issued uncollateralized loans to students based on financial need. Student loans have been funded through the Federal Perkins loan program or institutional resources. Student loans receivable are carried at the amount of unpaid principal less an estimate for doubtful accounts. Allowances for doubtful accounts are established based on prior collection experience and current economic factors which, in management's judgment, could influence the ability of loan recipients to repay the amounts per the loan terms. At June 30, 2021 and 2020, student notes represented .3% and .4% of total assets, respectively.

At June 30, 2021 and 2020, student loans consisted of the following:

	2021	2020
Federal government programs	\$ 637,667	\$ 757,301
Institutional programs	9,426	9,426
Totals	647,093	766,727
Less: allowance for doubtful accounts		
Beginning of year	(157,426)	(147,750)
Increase	(7,000)	(9,676)
End of year	(164,426)	(157,426)
Student Notes Receivable, Net	\$ 482,667	\$ 609,301

The Extension Act amended section 461 of the Higher Education Act to end the College's authority to make new Perkins Loans after June 30, 2018. The College is not required to assign the outstanding Perkins Loans to the Department of Education or liquidate their Perkins Loan Revolving Funds due to the wind-down of the Perkins Loan Program, however, the College may choose to liquidate at any time in the future. As of June 30, 2021, the College continues to service the Perkins Loan Program.

After a student is no longer enrolled in an institution of higher education and after a grace period, interest is charged on student notes receivable and is recognized as it is charged. Student loans receivable through the loan programs are considered to be past due if a payment is not made within 30 days of the payment due date, at which time, late charges are charged and recognized. The Federal Perkins Loan Program receivables may be assigned to the U.S. Department of Education. Students may be granted a deferment, forbearance, or cancellation of their student loan receivable based on eligibility requirements defined by the U.S. Department of Education.

At June 30, 2021 and 2020, the following amounts were past due under student loan programs:

June 30	Amounts Past Due

#### **NOTE 8 – LONG-TERM OBLIGATIONS**

##### ***BONDS PAYABLE***

Bonds payable at June 30 consist of the following:

	2021	2020
Wisconsin Health and Educational Facilities Authority Revenue Bonds, Series 2015 were issued in the amount of \$16,870,000. The Series 2015 Bonds have a variable interest rate (1.025% at June 30, 2021) and semiannual maturities varying from \$230,000 to \$500,000 through April 2035. The bonds are secured by various covenants and conditions along with a security interest in all real and personal property of the College.	\$ 11,430,000	\$ 12,255,000
Bond issuance costs of \$83,982 net of amortization of \$42,249 and \$35,747 at June 30, 2021 and 2020, respectively	<u>(41,733)</u>	<u>(48,235)</u>
Total Bonds Payable, Net	<u>\$ 11,388,267</u>	<u>\$ 12,206,765</u>

To minimize the effect of changes in the interest rate the College has entered into an interest rate swap agreement on the Series 2015 Bonds. The fixed interest rate under this swap agreement is 1.70% and the credit fee is .95%. Under the agreement, the College either pays or receives interest depending on the relationship between the variable rate and the fixed rate. See Note 9 regarding derivative instruments.

The College is required to comply with certain financial covenants of the Series 2015 Bonds. For the year ending June 30, 2021 the College must maintain a debt service coverage ratio of greater than 1.15 to 1, a minimum liquidity ratio of 1.8 to 1 and a ratio of liabilities to net assets of less than .55 to 1.0. For the year ending June 30, 2020 the College must maintain a minimum liquidity ratio of 1.8 to 1 and a ratio of liabilities to net assets of less than .55 to 1.0. The College has represented that it is in compliance with all of the above financial covenants as of June 30, 2021 and 2020.

Future principal payments on the 2015 bonds are due as follows:

<u>Years Ending June 30,</u>		
2022	\$	840,000
2023		850,000
2024		865,000
2025		875,000

2027 to 2031		4,705,000
2032 to 2035		<u>2,405,000</u>
Total	\$	<u>11,430,000</u>

Bond interest expense incurred during the years ended June 30, 2021 and 2020 was \$126,316 and \$273,086 respectively. See Note 9 for amounts paid or received related to the interest rate swap agreements.

#### NOTE 9 – DERIVATIVE INSTRUMENTS

---

The College uses an interest rate swap agreement as part of its risk management strategy to manage exposure to fluctuations in interest rates and to manage the overall cost of its debt (see Note 8). The interest rate swap agreement is used to manage identified and approved exposure and is not used for speculative purposes. The interest rate swap agreement is recognized as either an asset or liability on the statements of financial position and is measured at fair value. Interest rate swap agreements are often held for the life of the strategy, but may reflect significant interim unrealized gains or losses depending on the change in value since the inception of the contract. All unrealized and realized gains and losses from the interest rate swap agreement are reflected within non-operating activities in the statements of activities.

An interest rate swap agreement between the College and a third party (counterparty) provides for periodic exchange of payments between the parties based on changes in a defined index and a fixed rate and include counterparty credit risk. Counterparty credit risk is the risk that contractual obligations of the counterparty will not be fulfilled. Concentrations of credit risk relate to groups of counterparties that have similar economic or industry characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. Counterparty credit risk is managed by requiring high credit standards for the College's counterparty. The counterparty to this contract is a financial institution that carries investment-grade credit ratings. The interest rate swap agreement contains collateral provisions applicable to both parties to mitigate credit risk. The College does not anticipate non-performance by its counterparty.

For the years ended June 30, 2021 and 2020, respectively, the College paid \$191,960 and \$67,951 more than it received under the interest rate swap agreement. The difference between amounts received and amounts paid under the agreements is included within interest expense in the statements of activities.

**PERFORMING ARTS CENTER** - The College entered into a lease with Edgewood High School of the Sacred Heart (the High School) on July 3, 2018 related to the College's use of space in the High School performing arts center for performances, rehearsals, classroom instruction and other educational purposes. The initial term of the lease is for twenty years ending July 31, 2039 with an extension option for an additional ten years. The base rent for the initial twenty-year term is \$1,700,000 with \$425,000 partial prepayment of rent paid upon commencement of construction in 2018-19 and \$425,000 additional prepaid rent paid upon occupancy in 2019-20. The College will pay the remaining balance of \$850,000 in twenty annual installments of \$42,500 due on December 31 of each year during the initial term. The prepaid rent amortizes over the initial term on a straight-line basis. For the years ending June 30, 2021 and 2020, the College made annual lease payments of \$42,500 and recognized amortization of lease prepayments of \$42,500 for total lease expense of \$85,000 each year. At June 30, 2021 and 2020 the College has unamortized lease prepayments of \$765,000 and \$807,500, respectively, which are reported as Prepaid rent Performing Arts Center on the statements of financial position. Future annual lease payments are due as follows:

#### NOTE 13 – BOARD DESIGNATED NET ASSETS

---

Over the years the Board of Trustees has transferred undesignated funds into board designated endowment funds. These funds are managed and invested within the College's endowment fund (see Note 14). The quasi-endowment funds totaled \$37,581,462 and \$29,490,672 at June 30, 2021 and June 30, 2020, respectively.

Additionally, over the years the Board has transferred undesignated funds into capital projects investment accounts for construction and improvement projects. The board designated capital project fund totaled \$3,493,965 and \$3,883,539 at June 30, 2021 and 2020, respectively.

### NOTE 14 – ENDOWMENT

---

The College's endowment consists of 120 individual funds established for a variety of purposes. Its endowment includes both donor-restricted endowment funds and funds designated by the governing board to function as endowments. As required by Generally Accepted Accounting Principles (GAAP), net assets associated with endowment funds, including funds designated by the governing board to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

**Interpretation of Relevant Law** – The College is subject to the Uniform Prudent Management of Institutional Funds Act (UPMIFA) and, thus, classifies amounts in its donor-restricted endowment funds as net assets with donor restrictions because those net assets are time restricted until the Board of Trustees appropriates such amounts for expenditure. Most of those net assets are also subject to purpose restrictions that must be met before reclassifying those net assets to net assets without donor restrictions. The Board of Trustees has interpreted UPMIFA as not requiring the maintenance of purchasing power of the original gift amount contributed to an endowment fund, unless a donor stipulates to the contrary. As a result of this interpretation, when reviewing its donor-restricted endowment funds, the College considers a fund to be underwater if the fair value of the fund is less than the sum of the original value of initial and subsequent gift amounts donated to the fund and any accumulations to the fund that are required to be maintained in perpetuity in accordance with the direction of the applicable donor gift instrument. The College has interpreted UPMIFA to permit spending from underwater funds in accordance with the prudent measures required under the law. Additionally, in accordance with UPMIFA, the College considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

1. The duration and preservation of the fund
2. The purposes of the College and the donor-restricted endowment fund
3. General economic conditions
4. The possible effect of inflation and deflation
5. The expected total return from income and the appreciation of investments
6. Other resources of the College
7. The investment and spending policies of the College

#### NOTE 14 – ENDOWMENT (cont.)

---

Changes in endowment net assets for the year ended June 30, 2020 are as follows:

	Without Donor Restrictions	With Donor Restrictions	Total
Net assets, June 30, 2019	\$ 30,309,566	\$ 11,601,753	\$ 41,911,319

Net Assets, June 30, 2020	<u>\$ 29,490,672</u>	<u>\$ 11,415,491</u>	<u>\$ 40,906,163</u>

**Underwater Endowment Funds** - From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the College to retain as a fund of perpetual duration. There were no deficiencies of this nature as of June 30, 2021 or 2020.

**Return Objectives and Risk Parameters** - The College has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the College must hold in perpetuity or for a donor-specified period(s) as well as board-designated funds. Under this policy, as approved by the governing board, the endowment assets are invested in a manner that is intended to produce results that equal or exceed the spending rate plus inflation (Consumer Price Index-CPI) over a three to five-year market cycle. Actual returns in any year may vary from this amount.

**Strategies Employed for Achieving Objectives** - To satisfy its long-term rate-of-return objectives, the College relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The College targets a diversified asset allocation that places a greater emphasis on capital appreciation to achieve its long-term return objectives within prudent risk constraints.

**Spending Policy and How the Investment Objectives Relate to Spending Policy** - The College has a policy of appropriating for distribution each year 4.5% of its endowment fund's average fair value over the prior 20 quarters through the calendar year-end preceding the fiscal year in which the distribution is planned. In establishing this policy, the College considered the long-term expected return on its endowment. Accordingly, over the long-term, the College expects the current spending policy to allow its endowment to grow at a rate approximating the rate of inflation. The College has a policy that permits spending from underwater endowment funds depending on the degree to which the fund is underwater, unless otherwise precluded by donor intent or relevant laws and regulations.

#### NOTE 15 – RETIREMENT PLAN

---

The College provides retirement benefits for all employees after they have met the requirements for participation in the Edgewood College Retirement Plan (the Plan). Teachers Insurance and Annuity Association (TIAA) serves as custodian of the Plan. Plan participants direct the College as to the investment of amounts credited to their individual accounts under the Plan.

The College contributed amounts equal to 6 percent of the eligible salary of an employee, up to a maximum of \$7,000. The total contributions of the College to the Plan for the years ended June 30, 2021 and 2020 were \$1,126,409 and \$1,127,306, respectively.

---

#### NOTE 16 – LIQUIDITY AND AVAILABILITY

---

The College's financial assets available within one year of the statements of financial position date of June 30, 2021 and 2020 for general expenditures are as follows:

	<u>2021</u>	<u>2020</u>
Cash and cash equivalents	\$ 19,072,983	\$ 18,580,585
Short-term investments	6,011,936	6,011,436
Student accounts receivable	1,062,040	1,230,676
Other receivables	178,885	247,248

General endowment investment appropriated for current use	8,000	7,000
Less: restricted amounts	<u>(3,941,801)</u>	<u>(3,503,185)</u>
Total	<u>\$ 23,659,043</u>	<u>\$ 23,818,760</u>

The College's endowment funds consist of donor restricted endowments, board designated endowments and a general endowment. Income from donor-restricted endowments is restricted for specific purposes and therefore is not available for general expenditure. As described in Note 14, the board designated endowment and the general endowment have a spending rate of 4.5%. As of June 30, 2021 \$1,267,000 of appropriations from the board designated endowment and \$8,000 from the general endowment will be available within the next 12 months.

The College's practice is to structure its financial assets to be available as its general expenditures, liabilities and other obligations come due. The College invests cash in excess of daily requirements in short-term investments. The College has a board designated endowment of \$37,581,462 and \$29,490,672 as of June 30, 2021 and 2020, respectively. Although the College does not intend to spend from the board designated endowment other than amounts appropriated for general expenditure as part of its annual budget and approval process, amounts from its board designated endowment could be made available if necessary.
