SPECIAL NOTES
Healthcare and nursing education are constantly evolving. The Henry Predolin School of Nursing (SoN) Dean and faculty reserve the right to modify the contents of this Handbook at any time to stay current with changes in healthcare and/or nursing education.

CHANGES IN POLICY/PROCEDURE
Students will be notified of any policy/procedure changes through personal or written communication, SoN website, e-mail or Edgewood College Student Nurses’ Association (ECSNA).
HENRY PREDOLIN SCHOOL OF NURSING

MISSION
The Henry Predolin School of Nursing (SoN) reflects the Mission of Edgewood College by locating professional nursing education within the context of a Catholic, liberal arts setting in the Dominican tradition. Nursing is a profession built on knowledge from nursing theory, research and practice, the humanities, and the natural and behavioral sciences. Students are educated in a dynamic interactive environment to be knowledgeable, accountable, responsible, ethical and culturally sensitive graduates who will become leaders in a changing and diverse healthcare environment.

PHILOSOPHY OF THE NURSING CURRICULUM
The faculty develops, implements, and evaluates the curriculum to provide a broad and rich foundation for nursing practice. Faculty foster the professional development of students by offering learning challenges, promoting opportunities to think critically and creatively, and exhibiting collegiality in the teaching-learning environment. Teaching and learning is a dynamic and interactive process designed to integrate knowledge and research with professional nursing practice. Teaching and learning are facilitated when both students and faculty are actively engaged in the process.

ACCREDITATION
The Bachelor’s of Science in Nursing degree is accredited by the Commission on Collegiate Nursing Education and approved by the Wisconsin Board of Nursing and the North Central Association of Colleges and Schools Commission on Institutions of Higher Education.

The SoN Mission, goals, and expected program outcomes of the undergraduate program reflect integration with the Essentials of Baccalaureate Education for Professional Nursing Practice [American Association of Colleges of Nursing (AACN), 2008]:

American Association of Collegiate Nursing Education (AACN) Commission on Collegiate Nursing Education (CCNE)

Essentials of Baccalaureate Education: Baccalaureate Program Outcomes

At the end of the program, graduates will:

AACN Essential I  Liberal Education for Baccalaureate Generalist Nursing Practice
  • SON Program Goal: Integrate the liberal arts into the practice of nursing

AACN Essential II  Basic Organization and Systems Leadership for Quality Care and Patient Safety
  • SON Program Goal: Apply skills in leadership, quality improvement, and patient safety to provide high quality health care in a systems environment

AACN Essential III  Scholarship for Evidence-Based Practice
  • SON Program Goal: Translate current evidence into the practice of nursing

AACN Essential IV  Information Management and Application of Patient Care Technology
  • SON Program Goal: Demonstrate knowledge and skills in information management and patient care technology

AACN Essential V  Healthcare Policy, Finance, and Regulatory Environments
  • SON Program Goal: Integrate knowledge of healthcare policies, including financial and regulatory influences, on the healthcare system as they relate to quality care

AACN Essential VI  Interprofessional Communication and Collaboration for Improving Patient Health Outcomes
  • SON Program Goal: Perform communication and collaboration skills consistent with professional standards when working in interprofessional settings to improve health services
 AACN Essential VII  Clinical Prevention and Population Health

• SoN Program Goal: Assimilate health promotion and disease prevention strategies at the individual and population level.

 AACN Essential VIII  Professionalism and Professional Values

• SoN Program Goal: Integrate professional standards of moral, ethical and legal conduct in nursing practice.
• SoN Program Goal: Formulate a personal professional practice model that addresses accountability, continuous professional engagement & lifelong learning.

 AACN Essential IX  Baccalaureate Generalist Nursing Practice

• SoN Program Goal: Demonstrate knowledge and skills in the care of patients, including individuals, families, groups, communities, and populations across the lifespan and across the continuum of healthcare environments.

In addition to the AACN Essentials, the American Nurses Association (ANA) Scope and Standards of Nursing Practice (2015) and the Code of Ethics for Nurses (2015) continue to inform program goals.

 American Nurses’ Association Standards of Professional Nurse Practice and Standards of Professional Performance

As a professional nurse, it is our obligation and duty to adhere to the Nursing Scope and Standards of Practice (3rd edition) (American Nurses Association [ANA], 2015), and the Nursing Code of Ethics (ANA, 2015).

Standards of Practice: The Standards of Practice describe a competent level of nursing practice demonstrated by the critical thinking model known as the nursing process. Accordingly, the nursing process encompasses significant actions taken by registered nurses and forms the foundation of the nurse’s decision-making.

Standard 1. Assessment: The registered nurse collects pertinent and information relative to the healthcare consumer’s health or the situation.

Standard 2. Diagnosis: The registered nurse analyzes the assessment data to determine the actual or potential diagnoses, problems or issues.

Standard 3. Outcomes Identification: The registered nurse identifies expected outcomes for a plan individualized to the healthcare consumer or the situation.

Standard 4. Planning: The registered nurse develops a plan of care that prescribes strategies to attain expected, measurable outcomes.

Standard 5. Implementation: The nurse implements the identified plan.
• Standard 5A. Coordination of Care
• Standard 5B. Health Teaching and Health Promotion
• Standard 5C. Consultation
• Standard 5D. Prescriptive Authority and Treatment

Standards of Professional Performance: The Standards of Professional Performance describe a competent level of behavior in the professional role, including activities related to ethics, culturally congruent practice, communication, collaboration, leadership, education, evidence-based practice and research, quality of practice, professional practice evaluation, resource utilization, and environmental health. All registered nurses are expected to engage in professional role activities, including leadership, appropriate to their education and position. Registered nurses are accountable for their professional actions to themselves, their healthcare consumers, their peers, and ultimately to society.

Standard 7. Ethics
The registered nurse practices ethically.

Standard 8. Culturally Congruent Practice
The registered nurse practices in a manner that is congruent with cultural diversity and inclusion principles.
Standard 9. Communication
The registered nurse communicates effectively in all areas of practice.

Standard 10. Collaboration
The registered nurse collaborates with healthcare consumer and other key stakeholders in the conduct of nursing practice.

Standard 11. Leadership
The registered nurse leads within the professional practice setting and the profession.

Standard 12. Education
The registered nurse seeks knowledge and competence that reflects current nursing practice and promotes futuristic thinking.

Standard 13. Evidence-based Practice and Research
The registered nurse integrates evidence and research findings into practice.

Standard 14. Quality of Practice
The registered nurse contributes to quality nursing practice.

Standard 15. Professional Practice Evaluation
The registered nurse evaluates one’s own and others’ nursing practice.

Standard 16. Resource Utilization
The registered nurse utilizes appropriate resources to plan, provide, and sustain evidence-based nursing services that are safe, effective, and fiscally responsible.

Standard 17. Environmental Health
The registered nurse practices in an environmentally safe and healthy manner.

American Nurses Association Code of Ethics for Nurses

Provision 1. The nurse practices with compassion and respect for the inherent dignity, worth, and unique attributes of every person.

Provision 2. The nurse’s primary commitment is to the patient, whether an individual, family, group, community, or population.
Provision 3. The nurse promotes, advocates for, and protects the rights, health, and safety of the patient.

Provision 4. The nurse has authority, accountability and responsibility for nursing practice; makes decisions; and takes action consistent with the obligation to provide optimal patient care.

Provision 5. The nurse owes the same duties to self as to others, including the responsibility to promote health and safety, preserve wholeness of character and integrity, maintain competence, and continue personal and professional growth.

Provision 6. The nurse, through individual and collective effort, establishes, maintains, and improves the ethical environment of the work setting and conditions of employment that are conducive to safe, quality health care.

Provision 7. The nurse, in all roles and settings, advances the profession through research and scholarly inquiry, professional standards development, and the generation of both nursing and health policy.

Provision 8. The nurse collaborates with other health professionals and the public to protect human rights, promote health diplomacy, and reduce health disparities.

Provision 9. The profession of nursing, collectively through its professional organizations, must articulate nursing values, maintain the integrity of the profession, and integrate principles of social justice into nursing and health policy.

and admission policies

Degrees offered
The SoN offers two degree programs (Traditional and Post-Baccalaureate) that lead to a Bachelor’s of Science in nursing. There are 120-credits required for graduation in the Traditional program, of which 53 are in the nursing major. The Post-Baccalaureate program is 52 credits. Both programs are accredited by the Commission on Collegiate Nursing Education (CCNE) and approved by the Wisconsin Board of Nursing.

Traditional program Admissions information

Application Process
Students are admitted to the Traditional program in both Fall and Spring semesters. Students anticipating admission to the Traditional program for the Spring semester must complete their application between August 15 and October 1. Students anticipating admission to the Traditional program for the Fall semester must complete their application between November 15 and February 1. Candidates for admission are required to submit applications through the Nursing Centralized Application Services (NursingCAS) at http://nursingcas.org/. Students must submit all official transcripts and reference information to NursingCAS directly.

Guaranteed Admission Program to the Nursing Major (subject to change)
A direct admission program exists for students wishing to pursue a nursing degree who enter Edgewood College directly from high school. To be eligible for this program, students must meet entry-level criteria related to high school GPA and ACT scores. Once admitted into the guaranteed admission program, students must maintain cumulative and math/science GPA requirements. For further information, contact Edgewood College’s Office of Admissions.

General Admission Policies to the Nursing Major (subject to change)
Admission to the Traditional program requires a minimum GPA of 2.75 in all courses that satisfy Edgewood College degree requirements and a minimum GPA of 2.75 in all required math and science courses. Required math and science courses must have been taken within 5 years of admission to the first nursing course for credit in the nursing major, unless they were part of a degree earned within the past 5 years. A grade of “C” or better is necessary in each required science and math course.

Applicants must have either completed or be in the process of completing at least 45 college credits in the semester they apply to the Traditional program.
These 45 credits must include the following courses (or their transfer equivalent):

- ENG 110 W - College Writing
- MATH 121 M - Statistics
- Two semesters of college-level foreign language or two years of high school foreign language (evaluated by the Registrar’s Office)
- PSY 101 J - General Psychology
- Four of the following science courses (or their transfer equivalent):
  - CHEM 110 S - Intro to Chemistry (must be completed at the time of application)
  - BIO 155 SU - Human Cell Biology & Genetics (must be completed or in progress at the time of application)
  - BIO 210 - Anatomy & Physiology I (must be completed or in progress at the time of application)
  - BIO 211 - Anatomy and Physiology II (may be completed first term of program if microbiology was completed prior to program start)
  - BIO 312 S - Microbiology (may be completed first term of program if Anatomy and Physiology II was completed prior to program start)

Students with Baccalaureate Degrees
Students who possess a baccalaureate degree in another field from a regionally-accredited institution are considered to have fulfilled all of Edgewood College’s General Education requirements, except foreign language, religious studies, COR 2, and COR 3. Post-baccalaureate students entering the Traditional program, however, must meet all of SoN requirements for support courses in the major.
Admission Process
The SoN Undergraduate Admissions & Progression Committee will review all qualified applications and arrange applicant interviews. The SoN Dean is responsible for making the final decision of students eligible for admission. Students will be notified in writing of their acceptance to the nursing major by the SoN Dean. An offer of admission will be rescinded if a student fails to maintain academic eligibility prior to starting the nursing program.

Admission to the Traditional program is competitive; even students who meet the minimum requirements may not be admitted. Because of enrollment limits in the major, the School of Nursing may deny admission to qualified students.

Requirements Prior to Starting Nursing Classes
All students who are admitted to the Traditional program must have successfully completed a Certified Nursing Assistant (CNA) course, passed the certification examination, and hold a current CNA certificate before the start date of the program. Students must also hold CPR/AED certification, first aid certification, complete a Criminal Background Check, and meet health requirements prior to beginning nursing courses.

POST-BACCALAUREATE PROGRAM ADMISSIONS INFORMATION

Application Process
Students are admitted to the Post-Baccalaureate program using a rolling admissions format. Eligible applicants successfully applying by January 15 are ensured consideration for admission. Any applications received after January 15 will be considered on a space-availability basis. If space permits after the January 15 deadline, eligible applicants will be reviewed in a timely manner (typically notified of admission decision within one month of the SoN receiving the completed application). Any applications received after June 15 will be considered for the following year’s program.

General Admission Policies to the Nursing Major (subject to change)
Admission to the Post-Baccalaureate program requires an earned bachelor’s degree from an accredited institution as well as a cumulative GPA of at least 2.75 in all college-level coursework and at least a 2.75 in all required science and math courses. Required science and math courses must have been taken within 5 years of admission to the Post-Baccalaureate program unless they were part of a degree earned within the past 5 years. A grade of “C” or better is necessary in each required science and math course.
Priority will be given to students with a 3.0 and higher GPA. All required math/science courses must have been completed within five years of admission. Courses more than 5 years old will be considered on an individual basis.

In addition to holding a bachelor’s degree, applicants must have either completed or be currently enrolled in the following courses (or transfer equivalents) at the time of application:
- MATH 121 M - Statistics
- PSY 101 J - General Psychology
- PSY 345 - Lifespan Development
- A Religious Studies course that fulfills Edgewood College degree requirements (or must be fulfilled as part of the program)
- Two semesters of college-level foreign language (or two years of high school foreign language with a “C” average)
- The following courses (or transfer equivalent):
  - 4 or more credits of college-level, lab-based Chemistry
  - BIO 210 - Anatomy & Physiology I
  - BIO 211 - Anatomy and Physiology II
  - BIO 312 S - Microbiology

Admission Process
The SoN Undergraduate Admissions & Progression Committee will review all qualified applications and arrange applicant interviews. The SoN Dean is responsible for making the final decision of students eligible for admission. Students will be notified in writing of their acceptance to the nursing major by the SoN Dean. An offer of admission will be rescinded if a student fails to maintain academic eligibility prior to starting the nursing program.

Admission to the Post-Baccalaureate program is competitive; even students who meet the minimum requirements may not be admitted. Because of enrollment limits in the major, the School of Nursing may deny admission to qualified students.
Requirements Prior to Starting Nursing Classes
All students who are admitted to the Post-Baccalaureate program must have successfully completed a Certified Nursing Assistant (CNA) course and at one time passed the certification examination (though it is highly encouraged, as of 2018, students in this program are not required to hold an active license to begin the program). Students must also hold CPR/AED certification, first aid certification, complete a Criminal Background Check, and meet health requirements prior to beginning nursing courses.
GENERAL HENRY PREDOLIN SCHOOL OF NURSING INFORMATION

ACADEMIC HONESTY POLICY
The SoN enforces the Academic Honesty Policy adopted by Edgewood College (See College Catalog and/or the College student handbook).

As members of a scholarly community dedicated to healthy intellectual development, students and faculty at Edgewood College are expected to share the responsibility for maintaining high standards of honesty and integrity in their academic work.

Each student should reflect this sense of responsibility toward the community by submitting work that is a product of his or her own effort in a particular course, unless the instructor has directed otherwise. In order to clarify and emphasize its standards for academic honesty, the College has adopted this policy.

The following are examples of violations of standards for academic honesty and are subject to academic sanctions:

- Cheating on exams, submitting collaborative work as one’s own, falsifying records, achievements, field or laboratory data or other coursework
- Stealing examination or course materials
- Submitting work previously submitted in another course, unless specifically approved by the present instructor
- Falsifying documents or signing as an instructor or administrator’s name to a document or form.
- Plagiarism
- Or aiding another student in any of the above actions

Plagiarism, which is defined as the deliberate use of another’s ideas or words as if they were one’s own, can take many forms, from the egregious to the mild. Instances most commonly seen in written work by students in order from most to least serious are:

- Borrowing, buying or stealing a paper from elsewhere, lending or selling a paper for another’s use as his or her own; using printed material written by someone else as one’s own
- Getting so much help on a paper from someone else, including a college tutor, that the student writer can no longer legitimately claim authorship
- Intentionally using source material improperly, e.g., neither citing nor using quotation marks on borrowed material; supplying an in-text citation but failing to enclose quoted material within quotation marks; leaving paraphrased material too close to the original version; failing to append a works-cited page when sources have been used
- Unintentional misuse of borrowed through ignorance or carelessness

Sanctions recommended for academic dishonesty are an “F” on the assignment and/or an “F” in the course. Violations are reported to the Academic Dean’s Office. The Academic Dean’s Office may work with the College’s Academic Honesty Committee to revise sanctions when appropriate.

The SoN Nursing Code of Professional Conduct provides additional information related to academic violations (Appendix A).

ASSESSMENT TECHNOLOGY INSTITUTE (ATI) POLICY
The SoN utilizes the ATI assessment program. ATI compares Edgewood students’ achievements with other nursing students across the country. An additional fee for the ATI products and assessments is added to the tuition charge for each nursing theory course. The computerized examinations, completed at regular intervals throughout the curriculum, provide benchmarks for student performance in critical thinking, nursing process, therapeutic communication, pharmacology, maternal-child, psychosocial, medical/surgical, leadership, nutrition and community health nursing. These exams aid in preparing students to take the national licensing examination after graduation. Individual course syllabi in the nursing program outline pertinent information related to ATI products and Assessments used in individual courses.

ACADEMIC ADVISEMENT
Nursing students are assigned a nursing faculty member as their advisor once admitted to the major. Frequent contact with your advisor is encouraged. Course planning for each semester is done with the advisor. Other matters students may wish to
discuss with their advisor include:

- curriculum outline and overall program plan
- degree requirements
- policies and procedures
- academic progress, including Assessment Technologies Institute (ATI) test results
- adjustment to the professional role
- Edgewood and community support services
- individual interests and goals

COMMUNICATIONS

Faculty mailboxes and Edgewood email are used for communications. All nursing students are required to maintain an active Edgewood College email address. Students are required to check their Edgewood College email, and course Blackboard sites at a minimum 1-2 times per week for information about registration, course requirements, meetings and items of general interest.

Cancelling Classes

Classes may be cancelled due to faculty illness or inclement weather. In the event that theory class is cancelled, an official posting from the Academic Deans office will be posted on the classroom door. Faculty may also inform students via email when a theory class is cancelled.

In the event that a portion or the entirety of a clinical experience is cancelled, students will be contacted prior to the start of the clinical day by their clinical instructor or the Associate Dean of Undergraduate Programs.

In the event that Edgewood College cancels classes due to inclement weather, nursing theory, lab and clinical courses will be cancelled until classes resume. If the clinical day already started when Edgewood College cancels classes, students will complete necessary work already in progress and be dismissed from the clinical site by the clinical instructor as soon as possible.

EDGEOOOD COLLEGE STUDENT NURSES ASSOCIATION

Edgewood College Student Nurses Association (ECSNA) is an official constituent of the Wisconsin Student Nurse Association (WSNA) and the National Student Nurses Association (NSNA). ECSNA is participating in the All School Membership Program. This organization has been chartered as an official organization of the OSII (Edgewood College Organization of Student Inclusion and Involvement). Communication to the membership occurs through monthly meetings and virtual communication.

- The purpose of ECSNA is to assume responsibility for contributing to nursing education in order to provide for the highest quality of health care.
- To provide programs representative of fundamental interests and concerns to nursing students.
- To aid in the development of the whole person, including his/her professional role, his/her responsibility for health care of people in all walks of life.
- Encourage active participation at the local, state and national level of the Student Nurses Associations.

SIGMA NURSING HONOR SOCIETY (formerly Sigma Theta Tau International)

Sigma is the Honor Society of Nursing. Sigma includes more than 530 chapters and over 135,000 active members in more than 90 countries. Sigma provides students with resources and opportunities to engage with other nursing leaders and provides a way to develop professional and leadership skills (http://www.sigmanursing.org). The nursing program at Edgewood College is an at-large chapter, Beta Eta Chapter, with University of Wisconsin, Madison, Wisconsin. Nursing students who maintain high academic achievement including professional leadership potential have the opportunity to apply and be accepted into Sigma. To be eligible for application into the Honor Society, students must have completed at least half of the required nursing curriculum credits and achieved academic excellence. Nursing students must have a cumulative GPA of 3.0 or better and rank in the top 35% of their graduating class. All students applying must meet the expectation of academic integrity and professional leadership potential. Students will be contacted early in the fall semester of their senior year if he/she meets the criteria to apply.

PARTICIPATION IN HENRY PREDOLIN SCHOOL OF NURSING GOVERNANCE

Opportunities exist for students to participate in several SoN standing committees. Typically, only one student representative may serve on a standing committee. If more than one student is interested in serving on a specific committee, an interview
process will be initiated by the chair person(s) of the specific committee. When a committee vote is necessary, student committee representatives will have one vote during the committee meeting but their vote will not be included toward constituting a quorum.

Students may serve on the following SoN Standing Committees:
- Diversity, Equity and Inclusion Committee
- Research and Grant Review Committee
- Undergraduate Assessment Committee
- Undergraduate Curriculum Committee

ACCESSIBILITY AND DISABILITY SERVICES
If you are a student with a documented disability and are interested in accommodations for your courses, the Office of Student Accessibility and Disability Services (DeRicci 206G) can assist you. Each student shall be expected to make timely and appropriate disclosure and requests to effectively set up services. All requests for services and disabilities documentation are confidential.

If you have questions about services, accommodations, or documentation requirements, or to make an appointment, see the Accessibility & Disability Services website, http://accessibility.edgewood.edu/, or contact the Director at:
- Phone: 608-663-2381
- Email: AccessDisabilityServ@edgewood.edu

The College policy on nondiscrimination is available at Nondiscrimination on the Basis of Disability.
ACADEMIC PROGRESSION REQUIREMENTS AND POLICIES

REQUIREMENTS TO MEET THE NURSING DEGREE

COR SEQUENCE
COR 1 – Introduction to a Dominican Liberal Education (year 1)
COR 2 – Pathways to Engagement (year 2 or 3)
COR 3 – Integrating for the Common Good (year 4)

CORNERSTONES
• ENG 110 – College Writing (W-Tag)
• Math 121 (M-tag)
• Foreign Language (L-Tag) [May be fulfilled during H.S. per Registrar’s Office criteria]
• PSYCH 101 (J-Tag)

REMAINING CORNERSTONE COURSES
• Nursing 210/211 (I-Tag)
• PHIL 101 – Logic Practice of Critical Thinking (T-Tag)
• COMMS 100 – Introduction to Communication (O-Tag)

WAYS OF KNOWING
• Art History/Appreciation (A-Tag)
• Studio Art (B-Tag)
• Literature (C-Tag)
• History (H-Tag)
• Religious Studies (R-Tag)
• Lab Science (S-Tag)
• Non-Lab Science (V-Tag)
• May need additional J-, S-, or V- Tag

PERSPECTIVES ON THE WORLD
• Multi-cultural (O-Tag)
• Environmental (E-Tag)
• Global (G-Tag)
• Gender (Q-Tag)

PROFESSIONAL MAJOR REQUIREMENTS (COURSES THAT SUPPORT THE MAJOR)
• CHEM 110 Chemistry I – Prerequisite for NRS 210/211
• BIO 155 Human Cell Biology and Genetics – Prerequisite for NRS 210/211
• BIO 210 Anatomy and Physiology I – Prerequisite for 210/211
• BIO 211 Anatomy and Physiology II – Must be completed concurrently or prior to NRS 210/211
• BIO 312 Microbiology with Lab – Must be completed concurrently or prior to NRS 210/211
• BIO 410 Pathology OR BIO 412 Pathophysiology – Must be completed concurrently or prior to NRS 310/311
• PSYCH 345 Life Span Psychology – Must be completed concurrently or prior to NRS 340/341

NURSING COURSES
• ANRS 210/NRS210 Foundations of Professional Nursing
• ANRS 211/NRS 211 Caring: Nursing Assessment and Intervention
• ANRS 310/NRS 310 Professional Nursing: Adult Health
• ANRS 311/NRS 311 Caring: Adult Health Nursing
• ANRS 312/NRS 312 Pharmacology
• ANRS 315/NRS 315 Caring: Nursing Skills Lab
• ANRS 340/NRS 340 Professional Nursing: Long Term Health Issues
PROGRESSION IN THE NURSING MAJOR

Traditional Program
In order to progress while in the Traditional program, the student must have a minimum cumulative GPA of 2.5, a minimum cumulative GPA of 2.5 in nursing, and a minimum cumulative GPA of 2.5 in the required natural science and math courses. A grade of "C" or better is required to pass each nursing, math and science course. A grade of PASS in each clinical course is required for progression into the next clinical nursing course sequence or graduation.

Theory and clinical courses must be taken concurrently. If extenuating circumstances prevent a student from completing a clinical course, the clinical must be taken the following semester. If this does not occur, the SoN may require additional course work for the student. If nursing theory or clinical is interrupted for more than one semester, the SoN may require the student to enroll in a nursing Independent Study Course or additional coursework prior to progression into the next theory/clinical courses.

Coursework should be planned to ensure simultaneous completion of both general education and nursing major requirements during the semester that graduation occurs. Students who do not meet this timeline will need to present their situation to the Associate Dean of Undergraduate Programs.

Post-Baccalaureate Program
In order to progress in the Post-Baccalaureate program, students must maintain an academic cumulative GPA of 2.5. A grade of "C" or better is required in each nursing course. A grade of PASS in each clinical course is required for progression into the next nursing course. If these requirements are not met, the student is not eligible to progress in the Post-Baccalaureate program.

Students enrolled in the Post-Baccalaureate program must take companion theory and clinical courses concurrently. When satisfactory progression is not sustained students are dismissed from the program with the ability to appeal the dismissal ruling. Tuition reimbursement will be determined on an individual basis.

GRADING POLICY

Clinical courses are graded Pass/Fail.

Theory courses use the following scale:
A 95-100%  AB  90-94%
B  85-89%  BC  80-84%
C  75-79%  D  70-74%
F  0-69%

REPEATING COURSES
In accordance with College policy, a student may choose to repeat a course taken at Edgewood College to improve a poor or failing grade. A course required for the nursing major may be repeated only once for the GPA calculation in the nursing major. Most courses cannot be repeated for additional credit. Only the most recent attempt at the course will be included in the GPA calculation, even if the most recent attempt at a course results in a lower grade. In accordance with the college policy, the credits for a repeated course are earned only once, in total credits earned, provided at least one of the attempts results in a passing grade. All repeated courses and their grades will appear on the transcript in the terms they were taken and the repeated course(s) will be noted with an “R” (indicating a Repeated course).
ATTENDANCE IN NURSING COURSES

Students enrolled in the nursing program are expected to attend all classes, laboratories, and clinical experiences in order to fulfill credit requirements for each course.

In the event of an absence from clinical, students will be required to complete additional learning experiences as directed by the clinical instructor. No on-site clinical make-up experiences will be offered. Students cannot attend a different clinical section to make up an absence from clinical. Please note, there are no excused or unexcused absences from clinical and completing additional learning experiences as required by the clinical instructor does not remove the absence from clinical evaluations. Clinical attendance guidelines will be provided in each clinical course syllabi. Students will be informed on the method for reporting absence; clinical attendance is a requirement unless a true emergency exists as defined in the SoN Code of Professional Conduct (Appendix A). If a student is ill on the clinical day, he/she is required to submit his/her prep work for the missed clinical day. In addition, clinical instructors will assign supplemental work for the student to complete.

Students will not be excused from class, lab, or clinical to meet the needs of another course; nor will students be excused for other obligations, which include but are not limited to: coursework or testing for fulfillment of CNA certification, job interviews, orientation for employment, or orientation to another clinical site.

Failure to attend all nursing classes may result in Academic Alert submissions and dismissal from the nursing program.

The Edgewood College Academic Calendar is posted for the entire academic year before the start of fall semester. Students are expected to plan outside activities during semester breaks. Students should not schedule vacations at any other time during the academic semester. Travel arrangements for a scheduled break should not include any day in which a class or clinical is scheduled. Students will not be excused from class, practicum, or exams/quizzes prior to or immediately after a scheduled break or for any other vacation during the academic semester.

Additional attendance policies may be listed in individual course syllabi.

SUSPENSION OF STUDENTS FROM CLINICAL SETTINGS OR THEORY CLASSES

Suspensions from clinical settings or theory classes are defined as a onetime occurrence. Faculty may suspend a student from a clinical setting or theory class without warning for any violation indicated in the Nursing Student Handbook and the SoN Code of Professional Conduct (Appendix A).

Faculty may also suspend a student from a clinical setting without warning for any of the following:

- Failure to achieve or maintain health requirements, current CPR certification, or other requirements specific in contracts between the SoN and affiliating clinical sites.
- Unsafe, unethical, illegal, or unprofessional conduct.
- Evidence of inadequate preparation.
- Students receiving three (3) Academic Alert notices during a clinical rotation will be automatically suspended from clinical for the remainder of the semester and earn a failing grade in the course.

Faculty will notify the student of the suspension verbally and in writing (via Academic Alert) as soon as possible following the incident. The Academic Alert will be attached to the student’s Clinical Evaluation Tool (CET). Faculty will notify the SoN Dean and/or the Associate Dean of Undergraduate Programs of the suspension. Further action will be determined by the SoN Dean in consultation with the Associate Dean of Undergraduate Programs, and appropriate faculty. The student will be notified in writing of the action taken by the SoN Dean. In the event a student fails a nursing course, he/she will be notified of his/her right to appeal.

WITHDRAWAL FROM A NURSING COURSE(S) OR THE NURSING PROGRAM

Students who wish to withdraw from a nursing course or the nursing program should meet with the course faculty and their academic nursing advisor. Course faculty and the student’s academic nursing advisor will ensure that proper procedure is followed and documentation completed for withdrawing from a nursing course or the nursing program.

DISMISSAL/ADMINISTRATIVE WITHDRAWAL FROM THE NURSING PROGRAM

A student may be dismissed from the SoN for any of the following reasons:

- Failure to meet the academic standards.
- Behavior which is contrary to the ethical code of the nursing profession. This behavior includes any violations against
current HIPPA regulations.

- Three Academic Alerts issued during a clinical rotation will result in failing the clinical rotation. Any failure in a nursing course results in dismissal from the nursing program.

Reasons for administrative withdrawal are, but not limited to:

- Disruptive behavior in the classroom that interferes with the learning of other students.
- Lack of course prerequisite(s).
- Lack of instructor, advisor, or SoN approval for a course.
- Academic dishonesty.
- In addition, the SoN includes “unable to consistently meet course objectives, essentials and/or competencies”.

Once registered, the student retains responsibility and financial liability for all registered courses. Tuition refunds will not be granted when students are withdrawn by the institution for cause.

Procedure for Dismissal/Administrative Withdrawal

1. A student will be notified in writing by the SoN Dean of their dismissal/administrative withdrawal from the major.

2. A student will be notified in writing of their right to initiate the SoN appeals procedure, as stated in the Appeals section of the Nursing Student Handbook.

3. The SoN Dean will notify the student in writing of their right to appeal the SoN dismissal/administrative withdrawal decision to the Vice President of Academic Affairs/Academic Dean’s office (See General Information Section of Edgewood College Undergraduate Catalogue).

Returning/Readmission to the Nursing Program

A student’s progression in the nursing program may be interrupted for various reasons including, but not limited to:

- Personal/health reasons or family personal/health reasons
- Failure to meet academic requirements
- Other academic reasons

A student whose progression in the nursing program is interrupted for any reason and withdraws from a nursing course(s) prior to the College’s final course drop date for that semester, must complete SoN Course/Program Withdrawal Form (Appendix B) in conjunction with his/her academic nursing advisor.

A criminal background check is required for students whose background check was completed more than two years before re-entry into the program. Health requirements must also be current (completed no longer than two years before re-entry into the program).

Student Appeal Proceedings

A student may appeal dismissal decisions. Students are limited to no more than one (1) appeal during their time in the nursing program. The SoN Dean reserves the right to grant additional appeals. Appeals are limited to requests for reinstatement into the Nursing Program.

Students who are in the position of needing to request an appeal should contact the SoN Assistant Dean.

EVALUATION OF COURSES/FACULTY

Students will be given the opportunity to evaluate each of their courses and professors near the end of each semester. Instruments used for evaluation of theory and clinical courses are standard forms used by the College; however, faculty may add additional questions at the end of the form. The course instructor will request that students complete course/instructor evaluations online. Evaluations will be summarized by the Office of Institutional Research and submitted to the SoN Dean. Results will be available to faculty online after grading.

STUDENT COMPLAINTS AND RECORD REVIEW

Students have a right to voice a concern to the course instructor. A student who has a concern related specifically to his or her experience in the nursing program should consult with the course instructor in an attempt to arrive at a resolution of the issue.
If the concern is not resolved at the instructor-student level, the following sequence should be followed:

1. Discuss the concern with their SoN Advisor, if not resolved at this level;
2. Discuss the concern with the SoN Assistant Dean, if not resolved at this level;
3. Discuss the concern with the SoN Associate Dean, if not resolved at this level;
4. Discuss the concern with the SoN Dean, if not resolved at this level, the SoN Dean instructs the student to complete a Formal complaint. The SoN Dean is responsible for disposition and documentation of all formal complaints. The SoN Dean will maintain records for a period of three years following the student’s graduation or leaving the program.
5. If not resolved at the SoN level, the student may contact the office of the Vice President for Academic Affairs (VPAA).

GLOBAL EXPERIENCES DURING THE NURSING PROGRAM
Students may participate in global experiences during their program of study in the nursing program. If interested, please contact the Center for Global Studies at Edgewood College to learn more about health requirements and other information (passport requirements for example) needed for global travel. The SoN offers global experiences specific to nursing students as well. Information related to the SoN global experiences is distributed to students throughout the semester via flyers, classroom announcements, and announcements made through the ECSNA.
CLINICAL SPECIFIC INFORMATION

GENERAL INFORMATION FOR ALL CLINICAL SETTINGS
Current CPR/First Aid certification, physical exam, health data, CNA certification (for Traditional program), and criminal background checks are required upon admission to either the Traditional or Post-Baccalaureate nursing program. The required documentation is to be submitted to CastleBranch by the due date listed within the SoN admission packet. Additionally, students are required to keep all documentation up to date. Students are responsible for all costs associated with fulfilling these requirements, including fees associated with CastleBranch.

The SoN and all clinical agencies under contract to the SoN require that every student have a criminal background check completed BEFORE entry into the nursing major program (Students are responsible for payment of the required fees). The SoN Dean will notify any student in writing who may not be allowed to participate in clinical activities and may not be able to enter/complete the program if they have an infraction on one or more areas listed in the legislation as “Serious crimes, acts or offenses”. The SoN Dean may determine the need to request completion of additional background checks at any time during the nursing program. Students are responsible for all fees associated with additional background checks.

Students are responsible for notifying the SoN Associate Dean of Undergraduate Programs of any criminal charges or convictions that occur while enrolled in the program. Students convicted of certain types of offenses may not be able to participate in clinical placements and therefore will not be eligible to continue in the nursing program nor earn a degree in nursing.

It is also possible that a student may not be eligible for licensure by the State of Wisconsin or another state licensing authority if certain types of criminal offenses are identified in the background check.

CNA Certification
Students in the Traditional program must be certified as Nursing Assistants PRIOR to the first clinical course (NRS 211); students in the Post-Baccalaureate program must show evidence of having once been a certified nursing assistant PRIOR to the first clinical course (ANRS 211). Students will upload their certification to CastleBranch by the due date outlined in the SoN admission packet. Documentation of successful completion of a military medic course is also acceptable. Once admitted to the nursing program, CNA certification does not need to be maintained for progression in the nursing program.

CPR Requirements
Students must be certified in CPR for the Healthcare Professional PRIOR to the first clinical course (NRS 211/ANRS 211) and this certification must be kept current throughout the nursing program. Students are responsible for making their own arrangements to enroll in a CPR course; the course must be for Health Care Providers. Students will upload CPR certification documentation to CastleBranch by the due date outlined in the SoN admission packet. Certification time limit (1-2 years) is determined by the certifying agency. Students are responsible for maintaining CPR certification and uploading recertification documentation to CastleBranch.

FIRST AID Requirements
Students must be certified in Basic First Aid, either through the American Red Cross or American Heart Association PRIOR to the first clinical course (NRS 211/ANRS 211). Students will upload First Aid certification documentation to CastleBranch by the due date outlined in the SoN admission packet. First Aid certification does not need to be maintained beyond the NRS 211/ANRS 211 courses for progression in the nursing program.

HEALTH REQUIREMENTS

General Information
All health requirements are to be obtained through the student’s health care provider or the campus health clinic at their own expense. The student’s Health Record must be submitted to CastleBranch by the due date outlined in the SoN admission packet.

The Student Health Requirement form and all immunization/health requirement guidelines are available as a download in CastleBranch. Students may also use the physical form given to them by their physician. All mandatory (i.e. certificates for CPR and First Aid) and health information will be uploaded and stored on CastleBranch. Each student’s CastleBranch tracker will be archived after his/her graduation.
Each student admitted to the nursing program must meet the health requirements as specified below.

**Health Requirements (View tracker guidelines on CastleBranch)**

The following health requirements must be met PRIOR to beginning classes in NRS 210/211/ANRS 210/211.

- Physical examination within 12 months of admission for the traditional program, 6 months for the student in the Post baccalaureate nursing program.
- Tuberculin skin test (Mantoux) or Tuberculin blood tests: (a) QuantiFERON®-TB Gold In-Tube test (QFT- GIT) or (b) T-SPOT®.TB test (T-Spot) (within past 12 months). Annually, those with a positive TB skin test result will be required to complete a TB questionnaire to screen for active disease. The Tuberculosis (TB) Risk Assessment Questionnaire Screen Form can be found on the State of Wisconsin Department of Health Services - Division of Public Health website (www.dhs.wisconsin.gov/forms/f01748.docx).
- Documentation of a QuantiFERON Gold test or T-Spot if tuberculin skin test is positive
- Current tetanus immunization (within 10 years)
- MMR-2 doses required (immune status is accepted)
- Varicella immune status (lab results) or 2 doses of vaccine
- Hepatitis B-3 doses (If this immunization series is not completed prior to admission to NRS 211/ANRS 211, it must be in progress). If the student declines this immunization series, a SoN declination form must be completed and signed. The student must contact the SoN Clinical Coordinator to obtain the declination form.

The following health requirements must be met ANNUALLY.

- Annual flu vaccination (due November 1st of each year) Documentation must be submitted to CastleBranch PRIOR to November 1st of each year a student is in the nursing program.
- The tuberculin test is required annually. Documentation must be submitted to CastleBranch PRIOR to the expiration date of the TB documentation on file in CastleBranch.

If additional health requirements are specified by clinical agencies, students placed in those agencies are responsible for meeting those health requirements.

The SoN Coordinator will monitor CastleBranch and verify that assigned students have met all mandatory and health requirements by the designated due date and will inform clinical faculty if students are not compliant.

*Non-compliant students are not permitted to attend any clinical course activities. Clinical absences are recorded in the course evaluation tool.*

**Change of Health Status**

If at any time during the nursing program a student experiences a significant change in his/her health status, the SoN Associate Dean of Undergraduate Programs must be notified. This is to ensure that both the student and the clients he/she cares for are safeguarded against any possible untoward events. Permission to remain in or return to clinical may be required from the student’s health care provider.

**Drug Testing**

Students may be required to submit, as requested by faculty, to random drug tests once enrolled in the nursing program at a cost to the student. Random drug checks may be done in clinical agencies throughout the duration of a student’s clinical experiences. Admission/progression will be withdrawn for a student testing positive for drugs.

**CLINICAL DRESS POLICY**

Students are expected to maintain a professional appearance for both functional and aesthetic reason at clinical sites and are expected to comply with the clinical dress policy requirements of Edgewood College Henry Predolin School of Nursing. Students are responsible for all uniform costs. Some clinical sites may require an alternative dress code based on the site’s dress code policy. The clinical dress policy may vary with selected clinical experiences and/or conferences; faculty will inform students of appropriate professional attire for these experiences.

Faculty may suspend a student from the clinical setting for non-compliance with the SoN clinical dress policy (this suspension will be counted as an absence).

**All Clinical Settings**

- Edgewood College Name pin: must be worn on right chest of all uniform tops, including white lab coat.
• Shoes: must have closed toe and heel; color must be appropriate to the clinical setting.
• Nails: artificial/acrylic nails are not permitted; nails must be kept short and clean.
• Nail polish: only clear polish is acceptable.
• Rings: only wedding/engagement rings are permitted.
• Earrings: post or small hoops only; limited to two earrings per ear lobe.
• Ear Gauging: none allowed due to patient and personal safety issues.
• Bracelets and necklaces: none are permitted.
• Body piercings: none other than the ear are acceptable.
• Tattoos: no visible tattoos.
• Perfume: should not be worn in clinical settings because it may be offensive or harmful to patients/clients.
• Uniforms and other clothing worn: must be free of tobacco smoking odors when participating in all clinical activities; this policy includes presence in a health care facility for preparation of patient care or clinical observation activities.
• Facial hair: students must be cleanly shaven. If a full beard or mustache is worn, it must be neatly trimmed and groomed.
• Hair: must be clean, combed and professional in appearance. Just as with tattoos and body piercings, hair dyed in vibrant non-traditional colors can serve as a distraction, and therefore is not appropriate for clinical settings. Hair below collar length must be controlled to prevent contact with the patient/client, equipment or supplies.

Faculty may suspend a student from the clinical setting for non-compliance with the dress code (this suspension and recorded as an absence).

All Community Clinical Settings and All Participants in Clinical Activities
Red polo shirt with Edgewood College SoN logo embroidered on left front of shirt. The polo shirt must be purchased at the Edgewood College bookstore. A plain white or plain black crew/turtle neck may be worn under the red polo shirt. Black pants must be ankle length-no capris, jeans, cords, denim, leggings, cargo or yoga pants.
• Men and Women: Plain Black Dress Slacks to wear with the red polo shirt.
• A skirt may be worn. It must be knee length or longer with neutral nylons/hose or plain black socks.
• If a sweater is worn, it must be solid red, black or white.
• Hose must be worn; socks must be black; nylons must be a neutral color.
• Plain all black shoes; no sneakers.
• All items under “All Clinical Settings” apply.

Hospital or Other Clinical Settings
White scrub top with Edgewood College SoN logo embroidered on left front of top. The top must be purchased at the Edgewood College bookstore; black bottoms may be purchased at any uniform store; if a skirt is worn, it must be black and knee length.
• A plain white T-shirt must be worn under the scrub top.
• Underwear must provide adequate coverage and not show through clothing.
• Plain white lab coat must be worn over appropriate business casual wear (jeans or shorts are not permitted) when reporting to hospital for preparation prior to clinical time.
• Hose must be worn; socks must be black; nylons must be a neutral color.
• Shoes must be clean, non-mesh and appropriate for the clinical setting.

School of Nursing Name Pin
The SoN student name pin is to be worn with the lab coat as well as with both the community clinical and hospital clinical uniforms. The name pin should be worn on the right chest area. The student’s first name pin will be purchased by the SoN with funds from the SoN Lab Fee that is assessed the semester traditional students take NRS 315 and at the start of the Post baccalaureate student’s program.

Students are responsible for replacing any lost name pins. Name pins should be ordered through Championship Awards. The process is as follows:

1. Student calls Championship Awards at 608-226-0440.
2. Student indicates that he/she is an Edgewood College nursing student.
3. Student chooses between a pin or magnet attaching name badge (note that there is no difference in prices; note that pin may damage the scrub tops).
4. Student provides first and last name (students may use a shortened version of their name such as Tom for Thomas or Kathy for Katherine, other forms of nicknames are not permitted).
5. Student provides shipping address for name badge as well as phone number.

Championship Awards turnaround time is typically swift, therefore, students are expected to always have a name pin to wear during clinical activities.

TRANSPORTATION
Students are responsible for their own transportation to/from clinical experiences and classes. Use of a car is required 1-2 days per week for some clinicals. Students are responsible for any costs associated with transportation to/from clinical including but not limited to parking fees, fuel, vehicle maintenance.

CENTER FOR HEALTHCARE EDUCATION AND SIMULATION (CHES)/LAB EXPERIENCES
The CHES Simulation/lab environment is intended to simulate the healthcare environment in a safe setting. Therefore, student conduct is expected to be professional and respectful at CHES and in the nursing lab, just as it is expected in the clinical environment. Bullying or other inappropriate behaviors will not be tolerated. Confidentiality standards apply at CHES and in the Lab. There is to be no sharing of simulated patient information from CHES or the lab just as there should be no sharing of actual patients’ information from the clinical setting.

INCIDENT REPORTING
The SoN is committed to the safety of students, faculty, and those served in healthcare settings. Students are expected to follow safety policies and procedures of the clinical setting. Any unexpected event, occurrence, or incident that occurs in the clinical setting must be reported immediately to faculty and to the designated staff member at the facility according to the policy of the clinical site.

In conjunction with the student’s clinical instructor, the Associate Dean for Undergraduate Nursing Programs must also be notified of the incident and the SoN Incident Report Form must be completed.

If a student is injured during a clinical experience and medical treatment is necessary, the student should seek care at an appropriate facility based on the extent and severity of the injury and the specific policy of the clinical setting. Students are responsible for any costs associated with medical treatment. A student’s refusal of treatment will be documented on the SoN Incident Report Form.

HEALTH AND ACCIDENTAL INJURY INSURANCE
This insurance is not provided by Edgewood College, however, students can obtain insurance coverage independently. The SoN is NOT responsible for any costs incurred due to accidents, injuries, or other health incidents that occur during clinical rotations.

LIABILITY INSURANCE
Nursing students are covered by minimal liability insurance through Edgewood College. Students must identify themselves as Edgewood College nursing students by wearing the appropriate uniform and name badge(s) when they are in clinical agencies and engaged in clinical activities.

EXPENSES
An additional tuition fee is charged to students enrolled in the clinical and lab nursing courses. These fees are necessary due to costs related to clinical facilities, lab supplies, equipment, and liability insurance. Additional fees may be required by specific clinical sites.
APPENDICES

Appendix A

Code of Professional Conduct

Introduction
The Henry Predolin School of Nursing (SoN) at Edgewood College BS in Nursing, Post Baccalaureate BS in Nursing, Master of Science in Nursing, and Doctorate of Nursing Practice degrees are professional programs that expect the highest standards of ethical and professional conduct. The SoN Code of Professional Conduct is based on the American Nurses’ Association (ANA) Code of Ethics (2015), ANA Standards of Practice and Professional Performance (2004), and is an integral part of student development and professional performance. The SoN believes that professional behavior is an integral part of each student’s nursing education and adheres to the Code of Professional Conduct throughout all educational endeavors, activities, and events sponsored by EC SoN. Our duty is to maintain an environment supportive of personal growth, as well as to ensure safe, effective quality health care to the public.

Henry Predolin School of Nursing Standards of Conduct

NURSES ARE ACCOUNTABLE AND RESPONSIBLE FOR THEIR ACTIONS

As a professional nurse, it is our obligation and duty to adhere to the Nursing Scope and Standards of Practice (3rd edition) (American Nurses Association [ANA], 2015), and the Nursing Code of Ethics (ANA, 2015).

American Nurses Association Code of Ethics for Nurses

Provision 1. The nurse practices with compassion and respect for the inherent dignity, worth, and unique attributes of every person.
Provision 2. The nurse’s primary commitment is to the patient, whether an individual, family, group, community, or population.
Provision 3. The nurse promotes, advocates for, and protects the rights, health, and safety of the patient.
Provision 4. The nurse has authority, accountability and responsibility for nursing practice; makes decisions; and takes action consistent with the obligation to provide optimal patient care.
Provision 5. The nurse owes the same duties to self as to others, including the responsibility to promote health and safety, preserve wholeness of character and integrity, maintain competence, and continue personal and professional growth.
Provision 6. The nurse, through individual and collective effort, establishes, maintains, and improves the ethical environment of the work setting and conditions of employment that are conducive to safe, quality health care.
Provision 7. The nurse, in all roles and settings, advances the profession through research and scholarly inquiry, professional standards development, and the generation of both nursing and health policy.
Provision 8. The nurse collaborates with other health professionals and the public to protect human rights, promote health diplomacy, and reduce health disparities.
Provision 9. The profession of nursing, collectively through its professional organizations, must articulate nursing values, maintain the integrity of the profession, and integrate principles of social justice into nursing and health policy.

American Nurses Association (ANA) Standards of Professional Nurse Practice

Standards of Practice: The Standards of Practice describe a competent level of nursing practice demonstrated by the critical thinking model known as the nursing process. Accordingly, the nursing process encompasses significant actions taken by registered nurses and forms the foundation of the nurse’s decision-making.

Standard 1. Assessment
Standard 2. Diagnosis
Standard 3. Outcomes Identification
Standard 4. Planning
Standard 5. Implementation
  • Standard 5A. Coordination of Care
  • Standard 5B. Health Teaching and Health Promotion
  • Standard 5C. Consultation
• Standard 5D. Prescriptive Authority and Treatment
Standard 6. Evaluation

Standards of Professional Performance: The Standards of Professional Performance describe a competent level of behavior in the professional role appropriate to education and position.

Standard 7 Ethics
Standard 8 Cultural Congruence
Standard 9 Education
Standard 10 Evidence-Based Practice & Research
Standard 11 Quality of Practice
Standard 12 Communication
Standard 13 Leadership
Standard 14 Collaboration
Standard 15 Professional Practice Evaluation
Standard 16 Resource Utilization
Standard 17 Environmental Health

(Reprinted with permission from the Wisconsin Nurses Association 2018)

Academic Accountability and Responsibility
In addition to professional accountability and responsibility, students must also assume the same standards of accountability and responsibility for their education. Part of educational responsibility and accountability addresses preparation for participation in academic advising.

Advising
Traditional students are required to meet with their academic advisor every semester. It is the student’s responsibility to make and keep this appointment. During this time, students and faculty members will discuss the advisee’s academic plan, academic progress, and plans for graduation as well as answer any questions related to future employment, internships, graduate school or preparing for the state board exam (NCLEX). It is the student’s responsibility to come prepared for their advising appointment. Adequate preparation includes having a course plan developed prior to the appointment, knowing how many credits remain prior to graduation, and, if necessary, prior calculation of GPA.

As a student progresses in the nursing program, additional preparation for advising will include discussion of ATI results.

NURSES DEMONSTRATE PROFESSIONAL BEHAVIOR, RESPECT, CIVILITY

Students will fulfill professional nursing roles including client advocate, direct care provider, and educator, and will treat peers, faculty, members of the healthcare team, and clients with respect and compassion. Clients and their families come from different cultural backgrounds and hold different values. Students will respect these differences providing professional, empathetic and holistic health care for all.

Each student is expected to display behaviors that represent the Dominican values of Edgewood College, TRUTH, JUSTICE, COMPASSION, COMMUNITY, PARTNERSHIP, along with the values and beliefs of the Edgewood College Henry Predolin School of Nursing. In order to exhibit the quality and caliber of professionalism deemed appropriate for the Edgewood College student nurse, it is expected that the student will display the professional behaviors addressed in this code.

Clinical and Classroom Expectations
Students enrolled in the nursing major are expected to attend all classes, laboratories and clinical experiences in order to fulfill credit requirements for each course. In the event of an absence from clinical, students will be required to complete additional learning experiences as determined by the clinical instructor. NO on site clinical make-up experiences will be offered. Students
cannot attend a different clinical section to make up an absence from clinical. There are no excused or unexcused absences from clinical and completing additional learning experiences as required by the clinical instructor does not remove the absence from clinical evaluations.

Students are not to miss clinical, lab or class to meet the needs of another course (nursing or non-nursing), or to meet other obligations, which include but are not limited to: coursework or testing for fulfillment of CNA certification or ATI testing, job interviews, and/or orientation for employment.

The Edgewood College Calendar is posted for the entire academic year before the start of fall semester.
• Students are expected to plan outside activities during college breaks. Students should not schedule vacations at any other time during the academic semester.
• Travel arrangements for a scheduled break should not include any day in which a class, lab or clinical is scheduled.
• Students will not be excused from class, lab or clinical, or exams/quizzes prior to or immediately after a scheduled break or for any other vacation during the academic semester.

Additional attendance policies and expectations may be listed in individual course syllabi.

Participation at the Center for Healthcare Education and Simulation (CHES) and other activities related to being a student at Edgewood College, including Student Nurses Association events, travel experiences, and participation in other off campus experiences related to the SoN are treated as clinical activities in terms of professional behavior expectations. The student will display a caring and compassionate attitude when providing care for any patient, including simulation activities. Students must maintain confidentiality and privacy according to all HIPPA and health care policies and regulations.

Students are expected to arrive on time and be prepared for all class/lab/clinical activities; this includes administration of safe and appropriate nursing care. Any student reporting to clinical or lab under the influence of any substance, whether prescribed or illicit, that may interfere with the cognitive and/or physical ability to render safe patient care will be sent home and reprimanded according to school policy.

All students are expected to maintain professional behavior in both the clinical and classroom settings. This professional behavior includes, but is not limited to:
• Attending all class, lab and clinical activities.
• Taking exams as scheduled (including ATI tests).
• Arriving on time and leaving class/clinical as scheduled.
• Adhering to the SoN clinical dress code for all clinical activities.
• Accepting responsibility and accountability for one’s own actions. This includes completing assignments on time. Failure to complete assignments on time can result in a course failure.
• Giving prior notification in writing, voice mail, email, or per faculty course guidelines, to the faculty when he/she is unable to meet commitments. Students are to check with course faculty as to the method of communication required for concerns or questions regarding attendance. The faculty acknowledges that life emergencies do exist and will work with the student in these situations as they arise.

NOTE: True life emergencies do NOT include:
1. Scheduling work or vacation during class/lab or clinical, or exam times (including ATI testing).
2. Missing class in order to work; this is not an excused absence.
3. Non-emergent doctor or dental appointments.
4. Fatigue associated with personal choices such as work, extra-curricular activities, or social activities.
5. Planning “special” events that interfere with class, clinical time, or exam times. Example: wedding and vacation during classroom or clinical time.

• Interacting with others (peers, faculty, and patients/clients) in a respectful, sensitive and nonjudgmental manner.
• In the clinical setting, professional behavior must be maintained at all times including your time during patient preparation, breaks, lunch, and any other time you are at the clinical agency.
• Respecting others space and quiet time.
• Addressing faculty in a respectful manner by use of appropriate titles: Dean, Professor, Mr. /Mrs. and last name. Do not assume a first name basis is acceptable until you obtain permission from the faculty member.
• Use of professional language (no profanity and/or inappropriate gestures).
• No pagers or cell phones in class or clinical (with the exception of NRS 461 per faculty guidelines).
• Accountability for preparation for class/clinical.
• Constructive verbal and non-verbal behavior.
• Care for others in an empathetic manner.
• Honest, open, assertive communication.
• Confidentiality of all patient information.
• Teamwork and helping behavior for peers.
• Professional and personal courtesy, honor, ethics, and integrity.
• Maintaining professional boundaries.
• Respecting all individuals’ differences (i.e., culture, ethnicity, religion, work experience, gender, age, sexual orientation, etc.).
• Refrain from personal conversations and comments during lectures & other class presentations.
• Avoid using laptops for purposes other than educational or class activities as directed by course faculty.
• Wait until it is declared appropriate by the professor to gather things for breaks and at the end of class.
• Avoid leaving the room in the middle of a lecture or exam.
• Attending final clinical evaluations as scheduled and submitting the necessary paperwork prior to the final evaluation.

Examples of serious violations include, but are not limited to:
• Illegally removing healthcare agency or patient property from the premises.
• Destruction to any healthcare agency or patient property.
• Falsifying or fabricating clinical experiences.
• Calling in sick for clinical under false pretenses.
• Documenting nursing care that was not performed. (Documentation in advance of nursing performance or falsifying any documentation is illegal).

Bullying or Lateral Acts of Violence
Bullying or other lateral acts of violence will not be tolerated in the School of Nursing. Bullying is the demeaning, and downgrading of an individual through vicious words and cruel acts that undermine confidence and self-esteem. Bullying can involve both psychological and physical actions that can include, but is not limited to, social media, written, and verbal material that results in psychological or physical harm. Any student engaging in this type of behavior may be dismissed from the nursing program.

No Gift Policy
On occasion, students may want to recognize or thank a faculty member for their work throughout the semester. This more commonly occurs in the clinical setting. Even though this is intended as a gesture of thankfulness, it can create uncomfortable feelings among students who may not support the effort or who cannot contribute financially. As such, Edgewood College School of Nursing faculty members support a no gift policy for all instructors. If students want to offer a card of thanks, that would be appropriate.

Use of Social Media
People gain information, education, news, etc., by electronic media and print media. Social media are distinct from industrial or traditional media, such as newspapers, television, and film. They are relatively inexpensive and accessible to enable anyone to publish or access information, compared to industrial media, which generally require significant resources to publish information.

Use of social media (Facebook, twitter, phone texts, blogs etc.) is strictly prohibited in all capacities related to your School of Nursing experience. Posting pictures, comments or discussions addressing any classroom and/or clinical experiences on any of these sites could result in dismissal from the program. If you discover you have been “tagged” on a Facebook site, notify the individual responsible for the posting to remove the posting immediately. Follow up on this request with documentation from the individual who posted the comment/picture that it has been removed.

It is a common mistaken belief that content that has been deleted from a site is no longer accessible. Any and all content posted on any social media site can be accessed if so desired.

“Nurses have been disciplined by boards, fired by employers, and criminally charged by authorities for the inappropriate or unprofessional use of social media”. (www.ncsbn.org)

Edgewood College faculty may require a student to use social media as part of the course curriculum. This use of social media is at the discretion of the faculty and will be the only exception to the use of social media at Edgewood College during clinical or classroom settings.
Use of Cell Phones and Laptop Computers in Class

Behaviors such as talking in class, surfing the internet and use of cell phones, including text messaging during class, are distracting, disruptive, and disrespectful to individuals conducting class and your fellow classmates. These unprofessional behaviors will not be tolerated. Out of respect for your colleagues and instructors, all cell phones must be turned off and stored during class meetings. In the case of a life crisis or for individuals who must be “on call” or “accessible for a text message” on a specific date, please inform the instructor before class begins that you need to keep your cell phone switched on and nearby.

Laptops are allowed in class. Students using laptops must plan to sit in the back row to decrease distractions for other students. If this privilege is abused (i.e. using your laptop for purposes that are not class related) it will be removed at the discretion of the professor.

NURSES MAINTAIN ACADEMIC HONESTY

Edgewood College Academic Honesty Policy as stated in the EC College Catalogue (2018-2019):

“As members of a scholarly community dedicated to healthy intellectual development, students and faculty at Edgewood College are expected to share the responsibility for maintaining high standards of honesty and integrity in their academic work. Each student should reflect this sense of responsibility toward the community by submitting work that is a product of his or her own effort in a particular course unless the instructor has directed otherwise. In order to clarify and emphasize its standards for academic honesty, the College has adopted this policy”.

The following are examples of violations of standards for academic honesty and are subject to academic sanctions:

- Cheating on exams, submitting collaborative work as one’s own, falsifying records, achievements, field or laboratory data or other course work
- Stealing examinations or other course materials; submitting work previously submitted in another course, unless specifically approved by the present instructor
- Falsifying documents or signing an instructor’s or administrator/s name to a document or form
- Plagiarism
- Aiding another student in any of the above actions.

Plagiarism, which is defined as the deliberate use of another’s ideas or words as if they were one’s own, can take many forms, from the egregious to the mild. Instances most commonly seen in written work by students in order from most to least serious are:

- Borrowing, buying or stealing a paper from elsewhere, lending or selling a paper for another’s use as his or her own, using printed material written by someone else as one’s own.
- Getting so much help on a paper from someone else, including a college tutor, that the student writer can no longer legitimately claim authorship.
- Intentionally using source material improperly; e.g., neither citing nor using quotation marks on borrowed material; supplying an in-text citation but failing to enclose quoted material within quotation marks; leaving paraphrased material too close to the original version; failing to append a works-cited page when sources have been used.
- Unintentional misuse of borrowed sources through ignorance or carelessness.

Plagiarism---nurses or other authors do not claim the words and ideas of another as their own; they give credit where credit is due (American Psychological Association Ethics Code Standard 8.11)

Self-Plagiarism---nurses and other authors do not present their own previously published work as new scholarly work. An author may cite their own previous work, but they cannot submit that work as new material (American Psychological Association, 2010).

- Example: A student submits a paper to NRS 210 and then with a few minor edit changes submits the paper for another class.
- Example: A student submits a paper, from another class, in which he/she has augmented previous learning but fails to cite the original work.

Plagiarism and self-plagiarism are unprofessional, unethical, and are considered violations of the academic honesty code of the College and the School of Nursing. Participating in any act of plagiarism and/or self-plagiarism directly violates the Nursing Code of Ethics.

NURSES MAINTAIN A PROFESSIONAL APPEARANCE
Students are expected to maintain a professional appearance for both functional and aesthetic reasons. Students engaged in nursing clinical experiences are expected to comply with the dress code requirements of Edgewood College School of Nursing. The dress code may vary with selected clinical field trips or conferences; faculty will inform students of appropriate professional attire. Each student is responsible for purchasing the required uniform and Edgewood College nametag PRIOR TO beginning clinical.

**CLINICAL DRESS CODE**

Appropriate dress is required in all clinical settings. Some clinical sites may require an alternative dress code based on the site’s dress code policy. Faculty may suspend a student from the clinical setting for non-compliance with the Henry Predolin School of Nursing dress code. (This will be counted as an absence).

**All Clinical Settings**

- Edgewood College name pin is to be worn on right chest of all uniform tops, including white lab coat.
- Pre-embroidered shirts, scrub tops and lab coats are to be purchased at the Edgewood College bookstore.
- Shoes must be clean, have closed toe and heel; color must be appropriate to the clinical setting. No sneakers are allowed.
  - Students may have to wear black or white socks, depending upon setting.
  - Nails: artificial/acrylic nails are not permitted; nails must be kept short and clean.
  - Nail polish: only clear polish is acceptable.
  - Rings – only wedding/engagement rings are permitted.
  - Earrings – post or small hoops only, limited to two earrings per ear lobe.
  - Ear Gauging – None allowed due to patient and personal safety issues.
  - Bracelets and necklaces – none are permitted.
  - Body piercings – none other than the ear are acceptable.
  - Tattoos – no visible tattoos.
  - Perfume should not be worn in clinical settings because it may be offensive or harmful to patients/clients.
  - Uniforms and other clothing worn by students must be free of tobacco smoking odors when participating in all clinical activities. This includes presence in a health care facility for preparation of patient care or clinical observation activities.
  - Students must be cleanly shaven. If a full beard or mustache is worn, it must be neatly trimmed and groomed.
  - Hair must be clean, combed and professional in appearance. Just as with tattoos and body piercings, hair dyed in vibrant non-traditional colors can serve as a distraction, and therefore is not appropriate for clinical settings. Hair below collar length must be controlled to prevent contact with the patient/client, equipment or supplies.

**All Community Clinical Settings and Participants in Clinical Activities (as noted above)**

Red polo shirt with Edgewood College SoN logo embroidered on left front of shirt. The polo shirt must be purchased at the Edgewood College bookstore. A plain white or plain black crew/turtle neck may be worn under the red polo shirt. Black pants must be ankle length-no capris, jeans, cords, denim, leggings, cargo or yoga pants.

- Men and Women: Plain black dress slacks and black socks may be worn with the red polo shirt.
- If a skirt is worn, it must be knee length or longer and worn with neutral nylons/hose.
- If a sweater is worn, it must be solid red, black or white.
- All items under “All Clinical Settings” apply.

**Hospital or Other Clinical Settings (as noted above)**

White scrub top with Edgewood College SoN logo embroidered on left front of top. The top must be purchased at the Edgewood College bookstore; black bottoms may be purchased at any uniform store; if a skirt is worn, it must be black and knee length.

- A plain white T-shirt must be worn under the scrub top and all underwear must provide adequate coverage and not show through clothing.
- Plain white lab coat must be worn over appropriate business casual wear (jeans or shorts are not permitted) when reporting to hospital for preparation prior to clinical time.
- Hose must be worn under skirts; socks must be white; nylons must be a neutral color.
- Shoes must be clean, have closed toe and heel; color must be appropriate to the clinical setting.

**School of Nursing Name Pin**

The School of Nursing student name pin is to be worn with the lab coat as well as with both the community clinical and hospital clinical uniforms. The name pin should be worn on the right chest area. Your first name pin will be purchased by the School of Nursing with funds from your School of Nursing Lab Fee that is assessed the semester you enroll in NRS 315.
You are responsible for replacing any lost name pins. Any additional name pins should be ordered through Championship Awards. The process is as follows:

- Call Championship Awards at 608-226-0440.
- Indicate that you are an Edgewood College nursing student
- Specify whether you want to purchase a pin or magnet attaching name badge (Many students do not like the pin because it damages their scrub tops. Most faculty have a magnetic name badge and they are very nice. The price is the same for either name badge.)
- Provide your first and last name (you may use a shortened version of your name such as Tom for Thomas or Kathy for Katherine, but NO nicknames)
- Include the shipping address for your name badge and a phone number
- Turnaround time for this company is very fast, therefore the expectation is that you will always have a name pin to wear during clinical activities.

SANCTIONS FOR NOT ADHERING TO THE SCHOOL OF NURSING CODE OF CONDUCT

A student may be dismissed from the School of Nursing for any of the following reasons:

- Failure to meet the academic standards.
- Behavior which is contrary to the ethical code of the nursing profession. This includes any violations against current HIPPA regulations.
- Three academic alerts issued during a clinical rotation will result in failing the clinical rotation. Any failure in a nursing course results in dismissal from the nursing program.

Students whose behavior does not comply with the Code of Professional Conduct presented in this document will receive sanctions which may include, but are not limited to, the following: A lower or failed grade, reprimand, campus or community service, restitution, suspension or dismissal from the clinical/classroom or nursing program. The Dean of the School of Nursing may define further sanctions not listed in this document.

- **REPRIMAND** - official warning in writing that continuation or repetition of wrongful conduct may result in further disciplinary action (e.g. academic alert notice, documentation in clinical evaluation).
- **DISCIPLINARY PROBATION** - may be imposed for any misconduct, failure to follow the Code of Professional Conduct, or any other violations that do not warrant suspension from the nursing program, but require further consequences. Disciplinary probation is imposed for a designated period of time determined by the School of Nursing Dean. This probationary status includes the probability of further penalties if the student commits additional acts of misconduct or fails to comply in any probation contract details.
- **CAMPUS AND/OR COMMUNITY SERVICE** - requirement that services will be offered for a specified period to an appropriate nonprofit community agency and/or to the campus community.
- **RESTITUTION** - reimbursement for damage to or loss of property which occurred as a result of the misconduct.
- **SUSPENSION** - exclusion from classes, enrollment, and other privileges in the EC SoN.
- **EXPULSION** - permanent termination of admission and enrollment status in the EC SoN.

Disciplinary actions, to include expulsion and suspension, shall be included in the student’s permanent academic record.

PROCEDURE FOR PROFESSIONAL DISCIPLINARY ACTION

An allegation of professional misconduct may be made by other students, faculty, staff, clients/patients, visitors, or any member of an agency that has a verbal or written agreement to provide learning experiences for students. The allegation of misconduct should be submitted in written form to the faculty member in whose class or clinical setting the misconduct occurred and the SoN Dean. Information about the misconduct should include:

- **Date, time, location, and description of the incident.**
- **Names of all parties involved and witnesses.**
- **Supporting facts and justification for the complaint.**
- **Brief description of efforts to resolve the complaint.**
- **Date and signature of the person(s) making the allegation of misconduct.**
Students should first discuss any conduct allegations with the faculty member responsible for the clinical or classroom setting in which the infraction occurred. A faculty member who witnesses or observes a student will discuss the situation with the SoN Dean or designated faculty as directed by the Dean. The SoN Dean has the right to impose sanctions as deemed appropriate and may involve faculty members as needed. The Dean may also refer the student to the Appeal Process as described in the EC SoN Student Handbook.

Students who violate any part of the Code of Professional Conduct a second time will be dismissed from the School of Nursing.

If a student is in violation of the Code of Conduct as described in the College Student Handbook, it is the student’s responsibility to notify the School of Nursing Dean immediately upon being contacted of their violation by the Dean of Student’s Office.

(Updated July 2018)

STUDENT AGREEMENT

I understand the Henry Predolin School of Nursing at Edgewood College Code of Professional Conduct is consistent with the ethical obligations of nursing, and pledge to uphold the Code of Professional Conduct by abstaining from dishonesty, deceit, fraud, or other unprofessional behaviors as described in the Code.

I understand that my adherence to the Code of Professional Conduct is a required and appropriate requisite for enrollment and participation in this nursing program.

I accept responsibility and accountability for my professional behavior and conduct within all aspects of clinical and classroom instructional opportunities.

I understand that if I witness unprofessional conduct or behavior that I am ethically and morally obligated to report this information to appropriate faculty.

I understand that failure to comply with the Code of Professional Conduct as noted in the document may result in sanctions and possible expulsion from the School of Nursing.

Appendix B

Henry Predolin School of Nursing
Edgewood College
Course/Program Withdrawal Form

In order to ensure proper documentation following the withdrawal from a theory or clinical course and/or the nursing program, the student and the student’s faculty advisor must complete the following form.

To be completed by student

Name _______________________________________________________

I am withdrawing from the following course(s):

I have read and understand the document in the SoN Student Handbook Appendix C. I also understand that if I withdraw due to academic jeopardy and/or failing a course, I must meet with the SoN Admissions and Progression Committee before re-taking a class or re-entry into the program.

Student Signature ______________________________    Date  ______________

To be completed by faculty advisor (in conjunction with faculty member(s) teaching the course(s) being dropped).

Date met with student:  ________________

Items discussed:

☐ Re-entry into clinical courses is dependent on available space. A clinical space will not be held for a returning student. If a clinical space is unavailable, the student will not be able to return to clinical.

☐ If a student is out of clinical for more than one semester, the student may be required to repeat a previous course or be dismissed from the program.

☐ Students withdrawing from a course due to academic jeopardy will have to meet with the SoN Admissions and Progression Committee for a formal hearing to discuss performance improvement prior to re-taking a course or re-entry into the program.

Prior to withdrawing from the course/program, was the student in academic jeopardy?

☐ Yes _____ (SoN Admissions and Progression hearing required)

☐ No _____

If the student was in academic jeopardy in a theory course, what are his/her current exam scores (in percentages) and course grade?

For a clinical withdrawal: Was the student meeting the expected clinical course Essentials/Competencies at the time of withdrawal? If not, briefly describe performance concerns.

If the student was not in academic jeopardy, please explain the reason/circumstances for the course withdrawal.
To be completed by student at the conclusion of meeting with faculty advisor
By signing this form, you acknowledge that the above items have been discussed and that you understand the consequences of withdrawing from a nursing course and/or the program.

Student’s Signature ________________________________ Date ________________

Plan for re-entry

☐ Dependent on SoN Admissions and Progression hearing

☐ Depending on available space

☐ Student plans to return ____________________ (Fall/Spring term & year) and will be placed in NRS __________________________ (course numbers)
