

Edgewood College Retirement Plan

Welcome to your retirement program!

Edgewood College recognizes the importance of providing you ways to plan for your financial future. Your retirement program is an important part of your overall benefits, and the College helps you take the first step by enrolling you in the Retirement Plan.

Upon beginning employment:

- You will be automatically enrolled in the Plan at a 4% pre-tax deferral rate. Your contributions will be directed to the TIAA-CREF Lifecycle Fund closest to your projected date of retirement.
- Your beneficiary will be set to “Estate” - you can make updates to your account at any time.
- Your deferral rate will automatically increase 1% each year on October 1 until a deferral rate of 8% is reached.

If you do not wish to contribute to the Plan, you must register and complete enrollment with TIAA to stop or change your deferral rate – see instructions on the following pages.

When creating your retirement strategy, you can take one of two approaches within your plan:

1. Select a lifecycle fund

Lifecycle funds allow you to delegate asset allocation and rebalancing decisions. You can choose the lifecycle fund that most closely matches the year you expect to retire. For example, if you expect to retire at age 67 in 2044, you might consider the Lifecycle 2045 Fund. As with all mutual funds, the principal value of a lifecycle fund isn't guaranteed at any time, including at the target date, and will fluctuate with market changes. The target date approximates when investors may plan to start making withdrawals. However, you are not required to withdraw the funds at that target date. After the target date has been reached, some of your money may be merged into a fund with a more stable asset allocation.¹

2. Build your own retirement portfolio

Your plan offers a range of investment options from which to choose.
