

# EDGEWOOD UNIVERSITY

## *Division of Student Development*

### OUR STORY

The Division of Student Development supports and challenges the whole student in order to foster and deepen their lifelong learning. The relationships we build, the community we nurture, the care and empathy we extend, and the belonging we cultivate, promote this holistic growth.

Transition & Alumni Programs

#### **STUDENT LIFE**

Office of Student Involvement  
Residence Life

#### **WELLNESS CENTER**

Personal Counseling Services  
Health Services

#### **CAREER DEVELOPMENT**

Career Exploration  
Job and Internship Preparation

# WE HELP YOU LEARN, GROW, AND THRIVE.

## What learn, grow, and thrive mean to us:

### LEARN

Learning is the lifelong, integrative process of acquiring new skills, knowledge, and understanding. We create opportunities for learning and guide students toward new experiences, ideas, and stories.

### GROW

Growing is the natural and intentional journey of self-discovery and transformation stemming from openness, acceptance, and self-responsibility. We cultivate student development by challenging and supporting students to engage in reflection and demonstrate their growth through change.

### THRIVE

Thriving is an ongoing process of making meaning from experiences and deepening belonging for self and others. We empower students to utilize their resources in order to embrace holistic wellness, create networks of support, manage barriers, and contribute positively to the community.
